Line of Sight Study
 Scale: 1" = 20'-0"

Variance Request

Roof Equipment Screening (Required):
 "Roof top equipment must be screened to at least 12" above equipment on sides facing ROW and adjacent residential."
 Roof Equipment Screening (Provided):
 2" Building parapet screening above equipment.

- Key Notes:
1. Roof equipment consists of 6 painted metal HVAC units to be set a minimum of 2" BELOW the building parapet.
 2. Installation of required screening would be painted metal panels that would protrude 10" min. ABOVE the building parapet.
