RE: Request for SUP 2021-0015 to be Tabled until the February 15, 2022, City Council Meeting.

Dear City Council,

We respectfully request that consideration of SUP 2021-0015 be tabled at the February 1st City Council Meeting and instead heard at the February 15, 2022 City Council Meeting. The purpose of this request is to allow time to incorporate minor site plan changes to address comments from residents of the adjacent neighborhood.

Thank you for your consideration. We look forward to presenting at the February 15th meeting.

Sincerely,

Dear Mayor Fuller and City Council:

As a resident of Sorrellwood Park, I writing you today to protest the proposed project "Watermere" at the intersection of Hardin & Virginia.

Not long ago this Council rejected a multi-family complex under the auspices of having that parcel remain commercial in accordance with the City's comprehensive plan.

With regard to the Watermere project, Members of the City staff were opposed to this project when it went before the Planning and Zoning Commission, however despite that opposition – the plan was approved.

As this piece of City business comes before you, myself and my neighbors in our subdivision want to express our deep concerns about what is in reality, a multi-family project (a senior retirement facility) while there is currently the almost the exact same product being built across the street and a little south, Touchmark. Watermere claims they will afford their residents a less expensive option, therefore they are different than Touchmark, however in my opinion, just offering the same product at a less expensive price doesn't mean it's a good product or good placement for this project to land.

Additionally, I have serious concerns about the increased traffic this will bring to an already congested major intersection, as well as esthetics of the proposed building with its proposed 5 stories on the southeast corner of the Hardin/Virginia intersection.

I urge you, as our representatives in the City, to deny the change in zoning and keep the original intended use of the parcel as is – commercial.

Thank you for your service to our community - please give this careful consideration, the short term gain is not worth the long term problems overcrowding this intersection will bring.

Subject: Proposed apartment complex at the corner of Virginia Pkwy and Hardin Road (21-0015SUP2).

EXTERNAL SENDER ALERT: "WARNING - This email is originated from UNTRUSTED SOURCE. Do not click any link and do not open attachments unless you can confirm the sender. PLEASE REPORT SUSPICIOUS EMAILS BY CLICKING THE PHISHING BUTTON or contact: infosec@mckinneytexas.org!"

To Whom It May Concern:

I am writing in regards to the proposed apartment complex at the corner of Virginia and Hardin. I am very concerned about various issues with this proposal. First, is the aesthetics of a 5 story towering complex in the area of a park and two story homes. This complex does not flow or fit with the area/surroundings. I am not against growth or building on this land. I also do not want to have to sit in my backyard pool and look at a tall apartment complex vs the trees I see now. If the buildings were lower it would fit more and allow people that built and bought here to still enjoy their backyards. Another concern is the amount of traffic that will overpower that intersection. There is already a 3500 unit being built across the street (retirement/assisted living community). Adding another large living apartment building will just cause so much more traffic in this area.

Mark Shroeder lives in my community and so wonderfully explained all the reasons my husband, Tony Hernandez, and I also do not feel this would benefit this area and this community. See below:

I'm opposed to the latest attempt to change the zoning on this property mainly because it will lower property values for Sorrellwood Park, either directly or indirectly, and the property has better uses. In this latest case, it's essentially putting lipstick on a pig (i.e., it may be a slightly better option than the previous try, but it's a false option). I realize this is presented as a Special Use Permit, but it essentially is changing the use of the property from commercial to residential.

First, let's look at the building itself and, more importantly, it's height and the elevation of the property. The elevation of the property is approximately the same as Preston Creek Drive, therefore a five story apartment building will be seen by anyone in Sorrellwood Park with a northern view (north side of Preston Creek Drive especially, particularly homes north east of mine). It will tower over the Sorrellwood Terrace properties immediately south. The planned strip of trees between the two developments will not matter, as the last two stories will be seen above it.

For the residents on the north side of Sorrellwood Terrace, it will be a constant towering eyesore. Having seen such properties when we were looking for a home in this area, homeowners with this apartment building looking down on them will have a hard time selling their property. And as goes their property values, so will the others in Sorrellwood Terrace, which could effect all of ours adversely. I don't want to take that chance, especially when the entire option is not necessary. Also, with the increase in elevation to the Touchmark property (the senior living community on the west

Appendix B – 21-0015SUP2 Letters of Opposition

side of Hardin) and the mass of building going on there, Sorrellwood Terrace will have the visual feeling of being in a depression, adding to the property value depreciation daisy chain.

This apartment complex will also be the tallest building in the area (not including the water tower) and will be the focal point of the corner of Hardin and Virginia. It will be taller than the 7-11 across the street. The Planning and Zoning Commission staff did not recommend this project in part due to the over saturation of senior living on this corner (considering the proximity of Touchmark). I think their concern is valid.

There is also no certainty that this property, once built as an apartment building, will stay an independent living senior facility. Unlike Watermere's property in Southlake, which is condominiums, this property could be sold and converted to standard multifamily apartments with all the resulting issues. And at that point, the surrounding residents would have no say.

This property was zoned commercial as part of the McKinney master plan and should remain that way. This current developer tries to make the case that the property is not conducive due to the grade (and I assume the resulting cost to make it useable) but that charge is countered by the commercial property directly west of it, which has the same grade concerns.

Given the advent of the Touchmark development, I would like to give potential developers the time to realize the business opportunity presented by having a facility like Touchmark within walking distance. Businesses catering to that customer base would be advantageous to all. Doctors, medical specialists, services and other commercial entities (not the constant boogymen presented by developers, either a gas station or fast food outlet), would be great for the area.

This request for a Special Use Permit should be denied by the McKinney City Council.

Please think about what is truly best for the McKinney residents that have already bought and moved to this area. Keep it what is what originally zoned for..not an eyesore that would tower of everything in this area.

Thank you for your time!

Jeannie Morrison and Tony Hernandez

Council Members and Mayor Fuller,

I live in District 3 and I would like you to consider not approving the zoning request change at the corner of Hardin and Virginia, across from Bonnie Wenk park. The developer is proposing a 4/5 story independent living. If approved, this would put a 4/5 story building in the middle of residential neighborhoods. I live within walking distance from this site, so it will impact my neighborhood daily, forever. I am sure you are familiar with this intersection, but if not, could you please go look at it and visualize this building at that intersection? The developer said on the video with P&Z that the building is 4 stories in some sections, 5 in others and then has architectural details that make it even taller.

You may recall, last year this SAME developer was denied a zoning request change on this same property by Council. Last year he was seeking approval for a 4/5 story apartment building. It was denied by Council and I was grateful you listened to the neighboring community's concerns. Since apartments were rejected, this SAME developer resubmitted his request changing ONLY the demographic. It's still basically the same building type/height he submitted last year.

If the Council did not approve for apartments to go at this corner last year, why would you approve the same building simply with different occupants? I also recall someone on the Council that no apartments would go on that corner. In addition, when I watched the meeting video on this, Staff stated they were not backing this project at this site because the directive is to keep all corner properties commercial, as they are zoned for, but P&Z approved it anyway. I expect commercial to go at that corner as it was zoned for.

How tall exactly is this proposed building and is it within current allowed height? P&Z did ask several times how tall the building was but the developer only said 4 stories in some sections

Appendix B – 21-0015SUP2 Letters of Opposition

and 5 stories in other sections. They also had a very misleading photo showing dense trees that blocked the view of the residential homes that are adjacent to this site. There are trees there yes, but not dense as they falsely portrayed. They said current zoning allows for 4 stories, but this building is 5 stories in some sections.

I respectfully ask that you represent the neighborhoods around this site, protect Bonnie Wenk Park and uphold current commercial zoning.

I am very concerned about the possible rezoning of the property at the SE. corner of Hardin and Virginia. I live in Sorrellwood Park and I am fearful that this proposal will result in a decrease in home values, increased traffic and a decrease in the desirability of our development. We have been under siege from the north and south since I moved here 2 years ago. Firstly, the approved development to the south includes lower priced homes and now we are talking about a 5 story complex that will look like a wart on an otherwise desirable area.

Please help!

Dear Mayor and Council,

I am in strong opposition to the latest attempt to change the zoning on this property. The property has better uses for a business friendly environment.

It will lower property values in the surrounding charming neighborhoods either directly or indirectly. The impact to the trails and parks in that area would be significant.

Those Homeowners will have a hard time selling the McKinney Unique by Nature way, with a high rise within eyesight. As these types of complexes degrade at an exponential rate becoming an eyesore.

This Special Use Permit should be denied by the McKinney City Council. Please make the decision to protect McKinney's essence - the personality of our community.

Thank you for your time and consideration.

Dear Mr. Mayor and City Council Members,

Here we go again with a developer trying to put an apartment complex at the southeast corner of Hardin Blvd and Virginia Pkwy. City Council Agenda, 02/01/2022, Planning Case #21-0015SUP and 21-0088SP.

It was this same time a year ago when the City Council rejected re-zoning this corner from commercial to residential apartments. Please see the email below we sent to you last year opposing apartments on this corner property. The numerous negative impacts of this new apartment complex proposal remain largely the same.

It appears the developer can circumvent re-zoning by calling its apartment complex an "Independent Living Facility." There are only two substantial differences between the previous apartment complex proposal that the City Council rejected and this new developer's proposal: (1) these apartments are age-restricted, and (2) with 262 units and 5 stories, this complex is bigger and higher than the previous developer's rejected proposal. Simply put, it is just a very large age-restricted apartment complex that will tower over the corner and adjacent neighborhoods. It is in no way similar to the new senior community, Touchmark at Emerald Lake, currently under construction and included in the McKinney Master Plan on the opposite side of Hardin.

Labeling a 5-story, 262 unit apartment complex on this corner "senior living" does not change the fact that it is a high-density apartment complex which is not consistent with the character of the surrounding neighborhoods. Additionally, it would damage the surrounding the residents' property values and quality of life. Please note the Planning Staff does NOT recommend approval of this proposal.

The McKinney Master Plan and its zoning obviously intends this corner property to best serve the new Touchmark senior residents as well as the existing residents as commercial development. To say that this property will either be "apartments or another gas station or fast food joint" is a false choice. Professional

offices and other commercial services within walking distance would better serve Touchmark seniors and the surrounding neighborhood residents.

Personally, I wish the City would purchase the land and expand Bonnie Wenk Park. To keep McKinney Unique by Nature, we need more green space. However, I also see the value in commercial/professional services that would benefit Touchmark seniors and other surrounding residents.

I strongly urge the City Council to reject this apartment building complex proposal and encourage the landowner to work with the City to expand Bonnie Wenk Park, or pursue and facilitate development for businesses that will serve and benefit the surrounding neighborhoods and improve the area, instead of destroying it with apartment buildings.

Thank you.

City Council Members,

We are writing to convey our adamant opposition to the proposal to change the zoning on the property at the corner of Hardin and Virginia. Putting a 5 story apartment building on the property at that intersection would be an abomination for our neighborhood. It will be an eyesore for miles in each direction and certainly not something we want to view from our backyard in Sorrellwood Park, just south of the proposed structure. We are also confident, that regardless of who the residents are, the simple fact is that our home property values will decline over time.

Our understanding is that this would initially be built as an independent senior living facility, which is ironic given the massive construction going on across the street on the Touchmark Property, where a senior living community is being built.

A 5 story building should not be considered under any circumstances in our neighborhood. The senior living facility is not needed, and apartments should be out of the question. This property was zoned commercial and should stay that way.

Please vote a hard NO on this proposal to protect the integrity of our neighborhood.

Thank you in advance,

Kevin & Karen James

Dear Mr. Fuller,

The board members of the Sorrellwood Park Home Owners Association unanimously oppose the proposed development (21-0015SUP) on the corner of Virginia Parkway and Hardin Road. This latest proposal is no better than the last one a year ago that was tabled by the City Council and withdrawn by the developer. In fact, in some ways it is worse. The Planning and Zoning Commission agreed to approve the project despite a negative recommendation from the staff, just like the previous proposal. Instead of pursuing the Master Plan and keeping this property commercial, for the benefit of the surrounding neighborhoods, we are again looking at shoehorning a five-story, 262 unit complex onto a very busy corner.

Watermere at McKinney's five stories, which is higher than the previous project, will tower above the tree line and the surrounding area. The neighborhood immediately next to it, Sorrellwood Terrace, already in a depression, will have multiple stories looking down upon them, leaving them to feel surrounded. At a minimum, all north facing properties in Sorrellwood Park will see this building above the tree line. It will preclude commercial businesses/services using that land in a way which would benefit the area residents. If approved, there is no guarantee that this project will remain an age-restricted, independent living residence. A foreclosure or change of owners could lead to this property being turned into something identical to the previously disapproved project. Finally, this project will adversely effect the quality of life for the adjacent neighborhoods as well as property values.

We, the Board Members for the Sorrellwood Park HOA, request that approval for this special use permit be denied.
