2021 - October

McKinney Economic Development Corporation

MEDC Board,

We are pleased to finally be able to announce the huge expansion project we have been working on with Raytheon Intelligence & Space! This is a great win for McKinney and staff did an excellent job working with them to bring this big win home. They will soon begin construction on the 400,000 square foot advanced manufacturing facility on their McKinney campus. Thank you MEDC board, city leadership, council, and staff for all the hard work on this project.

Our pipeline of projects is still over \$1B strong in potential capital investment projects. The interest in McKinney is stronger than ever and we look forward to more big announcements.

Peter
