

Case No. 11-154M

Modifying the Definition of Car Wash, Fueling Station or Gasoline Station, and Service Station.

Proposed Car Wash Definition

Car Wash means a building or portion thereof, containing facilities for washing motor vehicles including, but not limited to, automobiles, motorcycles, buses, or recreational vehicles (excluding semi-trailer trucks with at least 3 axles that are designed to tow trailers) using automated or manual methods including chain conveyor, blower, steam cleaning device, or other mechanical device. A car wash may also be referred to as an auto laundry.

Proposed Fueling Station or Gasoline Station Definition

Fueling Station or Gasoline Station means a retail fuel sales facility selling fuel for motor vehicles including, but not limited to, automobiles, motorcycles, buses, or recreational vehicles (excluding semi-trailer trucks with at least 3 axles that are designed to tow trailers) with no ancillary services such as vehicle service, vehicle repair, or sale of items other than fuel. The fueling or gasoline station may be attended or automated.

Proposed Service Station Definition

Service Station means any building or premises used for the dispensing, sale, or offering for retail sale of any fuels or oils for motor vehicles including, but not limited to, automobiles, motorcycles, buses, or recreational vehicles (excluding semi-trailer trucks with at least 3 axles that are designed to tow trailers). If the dispensing, sale or offering for sale is incidental to a public garage, the premises shall be classified as a public garage, and not as a service station.

Staff Recommendation

Staff recommends approval of the proposed amendment to the Zoning Regulations.
