RE: Removal of School Zone Formerly Serving Slaughter Elementary School
Virginia Parkway between Carlisle Street and Dogwood Trail

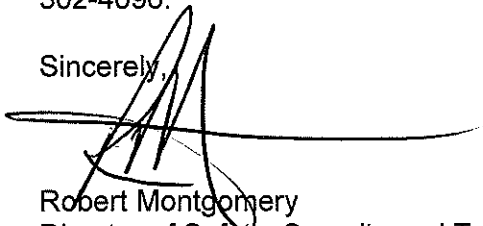

Dear Mr. Tilke:

This is written in support of the proposed removal of the school zone formerly serving Slaughter Elementary School along Virginia Parkway between Carlisle Street and Dogwood Trail. MISD has removed the crossing of Virginia Parkway at Carlisle Street from the designated walking route to Slaughter Elementary and now provides bus service to students needing to cross Virginia Parkway. MISD requests that all other school zones for Slaughter Elementary remain active and unaffected by the proposed modification.

For reference, the school zone to be removed is specifically described in Section 62-268 (4) of the City of McKinney Code of Ordinances. The zone extends from a point 350 feet east of Carlisle Street and extends westward to a point 100 feet west of Dogwood Trail. MISD supports complete removal of this school zone.

If you have any questions or need additional information please feel free to contact me at (469) 302-4096.

Sincerely,

Robert Montgomery
Director of Safety, Security and Transportation
