19-0010M5 2019 Impact Fee Update - Information Series Presentation #2. Mr. Aaron Bloxham, Planning Manager for the City of McKinney, gave a

presentation on the progress of the 2019 Impact Fee Update. Vice-Chairman Mantzey asked about the land use assumptions and how it was stressed tested. Mr. Bloxham explained that there were a lot of technical calculations used for the various land uses in the study. He stated that the impact fees were updated every five years and the Semi-Annual Impact Fee Reports were given to review the data twice a year. Commission Member Doak asked how changing zonings on properties impacted it. Mr. Bloxham stated that a change in zoning could make a small impact. Commission Member Doak asked why Staff was redlining #4 shown in the Staff Report. Mr. Bloxham stated that it would take the City up to the maximum impact fee for every single item we have, which would put us out of touch with what our sister cities collect in impact fees. He stated that there could be some unique situations where we would need to make some changes. Mr. Bloxham stated that the City tries to be developer friendly. Chairman Cox asked for clarification on what Staff will be recommending for the wastewater impact fee amount. Mr. Bloxham stated that Staff will go back to look at the numbers compared to what the sister cities charge. Mr. Bloxham stated that the next presentation should be held in October 2020. No action was taken on this item.
