Dear, David

During our post project review we discovered a bust in our bid, which explained the greater bid spread on the Mouzon Ball Field vs. the other two projects . A unit price was not carried properly which impacted the following cost codes:

- Site shelter - Material
- Site shelter – Roofing
- Site Shelter – Install
- Contingency Fund

We are prepared to build the project, however with the discovery of bust we respectfully request the opportunity to withdraw our bid on the Mouzon Ball Field project.

Sincerely,

Matt Kelly
