Re: Site Plan submittal for Tennis Expansion

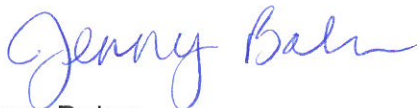

To Whom it May Concern:

The City of McKinney Parks Department is submitting an application for site plan approval for an expansion to the tennis complex and associated park enhancements. The property is located within Gabe Nesbitt Community Park.

The project consists of adding additional tennis courts, modifying the center court, adding parking, including a future phased indoor facility, maintenance and restroom building, hike and bike trails, practice areas and play equipment.

Please let me know should you have any questions.

Sincerely,

Jenny Baker
Parks, Planning & Development Manager
