They voiced concerns regarding proposing “C2” – Local Commercial District uses close to their unique neighborhood; decrease in property values; lack of privacy and screening; increased traffic, noise, light, trash, chemicals, and pests; removal of the current house on lot 19; no guarantees on what would be developed on the property; no guarantees that Mr. Andre will not sell the properties once rezoned; Mr. Andre might later want to also rezone and develop lot 18 that he currently lives in to encroach further into the neighborhood; possible removal of the emergency gate to the south; felt that the current zoning was appropriate for the property; there are other locations along U.S. Highway 380 (University Drive) where “C2” – Local Commercial District would be more appropriate; the purchase of lot 19, and the memory care facility located in the Meadow Ranch subdivision looks similar to the other houses on the street.
