Subject: Zoning request

Good Afternoon Mr. Robinson,

I am writing you to oppose the annexation/zoning request on the north side of CR 123, just north of Heatherwood. As you know, the developer is requesting that zoning be changed to allow for 177 new homes to be built on this land. I feel the city should address the crumbling rural infrastructure before allowing any new annexations or housing developments. As we can see, Heatherwood is about to begin Phase 2 with homes available within the year and the infrastructure has not been improved! Allowing the 177 additional new homes without an elementary school for the children to attend is also irresponsible on the part of the city. Baker Elementary is already at capacity!

Please continue to keep McKinney "Unique by Nature" rather than overcrowded by design! The Northwest Sector and ETJ have some of the most magnificently natural areas in all of Collin County. Please respect what cannot be replaced!

Sincerely,

Jan and Richard Clare

Subject:

Mr. Robinson,

I oppose the zoning changes on CR 123 between Custer and Lake Forest to allow for 177 residential home subdivision. How can the city even consider this before:

1. build out of arterial roads planned since 2004
2. decision / vote in May or June on US380 Bypass.

The City of McKinney seems bent on flooding any/all open space with more homes rather than developing an infrastructure to support the influx of vehicles this will incur. CR 123 between Custer Road and Lake Forest Drive is already hazardous. More vehicles, especially the construction vehicles, this would bring seems ludicrous without safe roadways to support the growth.

I would hope the City Council and officials would focus more at this juncture on changing the negative perception of commercial contractors and corporations to get their business and tax dollars in McKinney and slow way back on residential developments until arterial roads and the Collin County Outer Loop are built out and US 380 is improved significantly to handle more traffic.

Thank you for your consideration!

Regards,

Cassandra Carrion

McKinney Resident of 5612 Pinewood Dr. 75071

Subject: Concerns

Good afternoon

I recently moved from one side of McKinney to right off of Lake Forest between Wilmeth and CR 123. My best friend lives on CR 123. Our families are together weekly, kids attend schools in the area, etc. I chose to move to that area because it's the last area of McKinney to have the country feel, beautiful land, animals, etc. Our families have been devastated by the possible rezoning, possible new development on CR 123, the amount of traffic that would put on CR 123, and the fact that CR 123 could not support that kind of new traffic. I thank you for your time and ask you to consider the infrastructure before any new development.

Subject: Bloomdale Farms proposed rezoning

Mr. Robinson,

I am opposed to the rezoning request for 177 SFR's in Bloomdale Farms. Please tell the city to stop destroying what makes McKinney so unique and beautiful with yet another subdivision, cramming in more houses and pushing kids into schools that are already bursting. Please register my strong opposition.
