Healthy Lifestyles

Every day at BGCCC Clubs we provide nutritious snacks, engaging fitness activities, and competitive sports leagues to get members excited about leading healthy lifestyles. The Triple Play program was developed in collaboration with the U.S. Department of Health & Human Services. The program demonstrates how eating smart, keeping fit, and forming positive relationships add up to a healthy lifestyle.

Enhancing Community Engagement through Countywide Athletics in McKinney Club

- Hosted at our McKinney Club, BGCCC proudly provides youth with opportunities to participate in recreational activities including basketball, volleyball, soccer, flag football, and cheerleading.
- Research shows that youth involved in sports perform better academically. Sports teach discipline, time management, and goal-setting, which can translate into improved academic habits.
- Sports leagues foster a sense of community among participants, families, and communities. Providing a platform for building positive relationships and social networks.
- Participation in structured after-school activities like sports has been linked to lower rates of delinquency, substance abuse, and other risky behaviors among youth.

McKinney Boys & Girls Club Project: Funding Requested from MCDC

Enhancing
Community
Engagement
Through Sports

Vision of the Future

By 2030, we will provide a world-class, affordable and accessible Club Experience to 14,000 of the Collin County youth (~7%), with all members on track to graduate high school with a plan for the future, practical life skills, demonstrating good character and citizenship and a healthy lifestyle.

Thank You MCDC!
