

Priority
Low Income Housing
Destination Park (Klyde Warren; Millenium in Chicago)
Outdoor performance venue
Public transportation/connectivity/Bike share
Destination retail/entertainment/high-end retail/ mid-level dining
Restore, refurbish, update existing parks
Children's Museum
Pubic gathering space
Amenities in east McKinney
Hike and bike trails
Large scale entertainment venue
Large scale water park (e.g. Schlitterbahn)
Support mixed-use development (Q of L) such as Southgate
Public/private partnerships (could be incorporated into many projects)
Aquatic and fitness facility - north
Redevelopment of Cotton Mill and Flour Mill
Medical facilty on east side (FQHC)

Notes:

With respect to destination park - Millenium and Klyde Warren were large city examples provided. Also discussed, could Towne Lake or another existing park near downtown - Old Settlers, Finch, Mitchell be the site of a public gathering space or destination park.

With respect to low income housing - are there other options/organizations to work with in addition to MHA and NCCHFH?

With respect to public/private partnerships - what process should be used; how best to pursue?

Could Towne Lake or Old Settlers be the site of a public gathering space or destination park?

Area north of 380 is underserved when it comes to athletic/fitness facilities and aquatics

Should funds be allocated to promotion of existing park facilities - to help ensure residents know of options available?

Desire for meeting with MEDC and Parks Advisory Board to discuss.

MEDC truned down the recent McKinney WERX/DEC funding request.

With respect to entertainment venue - need to understand interest in a large scale pavillion (e.g. Gexa) vs. community pavillion.

Should desination park and community gathering space have been combined as a single initiative.

Target date for meeting with Council in January
