

### Fiscal Note for Paperless Meeting Solution

Agenda for each meeting could be projected on the screen in the boardroom. iPads could be issued to each board member and board alternate. Additionally, iPads could be issued to Council liaisons and the Interim City Manager – if needed.

Below is the cost that would need to be covered by MCD C:

iPad: \$ 529.99 each  
Monthly Data Service for each provided by Verizon: \$37.99/month - \$455.88/year

IT recommends a two-year refresh cycle on hardware.

If eight iPads were issued, the total for year one would be

- iPads: \$4,239.92
- Data service: \$3,647.04
- **Total: \$7,886.96**

In year two the cost would be for service only - \$3,647.04
