

WASTE CONNECTIONS INC.
Connect with the Future®

April 17, 2017
Mr. Eric Hopes
Solid Waste & Fleet Superintendent
1550 S. College St.
McKinney, TX 75069

It continues to be a pleasure for Waste Connections (formerly Progressive Waste Solutions) to have the opportunity to provide waste and recycling services to the City of McKinney. We take pride in our work and feel that our company delivers the best and most innovative service our industry has to offer. I sincerely hope that McKinney's residents and City staff experience a level of service that is above expectations.

Please accept this letter as a request by Waste Connections for a slight rate adjustment of 1.67% as cited in our contract. The adjustment is a result of Consumer Price Index changes and increased operational costs as reflected by fluctuations in the Price Wage Earners and Clerical Workers (CPI-U, All Items) published by the U.S. Department of Labor, Bureau of Labor Statistics, Dallas-Fort Worth area report.

Thank you for understanding that this price increase means that we can continue the superior standard of our services for the coming year. I would be happy to discuss this matter in further detail if any additional information is required.

Respectfully submitted,

Elizabeth Keller
