Subject: City Council Agenda Item #13-189A2

Dear Councilwoman Keever:

I want to state that I am against the annexation of the property described in the above referenced Council Agenda Item #13-189A2.

First of all no one living within two hundred feet of the property proposed to be annexed into the city received notification of either yesterday's or today's City Council meetings to discuss the annexation of this property. The last time that this property came up for annexation, we were all mailed a notification post card 10 days prior to the meeting.

Second, when I was researching the zoning for this property (received notification post card Saturday) I ran across a proposed zoning map for the project subject to annexation. There is no signage on the property indicating that it is about to be rezoned to Commercial, Business/Professional and PD. Come Monday morning when I tried to show the map to my neighbor's we discovered that it had been taken down.
