20-0010M Conduct a Public Hearing to Consider/Discuss/Act on the Semiannual Report with Respect to the Progress of the Capital Improvements Plan for Roadway and Utility Impact Fees. Mr. Mitchell Corona, Planner I for the City of McKinney, explained the Semiannual Report with respect to the progress of the Capital Improvements Plan for Roadway and Utility Impact

Fees. He stated that Staff recommends filing of the Semiannual Report with respect to the progress of the Capital Improvements Plan for Roadway and Utility Impact Fees and offered to answer questions. Vice-Chairman Mantzey asked who determines the amounts and size of the service areas. He also asked if they could be changed. Mr. Corona stated that the service areas for roadway can be changed. He stated that it would be difficult to change at this point due to the fees collected in a services area must be spend in that same service area. Mr. Corona stated that over time there are some minor changes made as alignments for roadways change. He stated that to redo all the service areas would be a large administrative task. Chairman Cox gave an example of Hardin Road and US Highway 380 (University Drive) having a lot of development. Mr. Corona stated that the purpose of service areas was to spend funds in a particular roadway area that was impacted with local development. Vice-Chairman Mantzey stated that since the service areas were determined there had been changes in the Extraterritorial Jurisdiction (ETJ) due to annexations that may affect the long-term plan. Mr. Corona stated that was something to investigate. Chairman Cox opened the public hearing and called for comments. There being none, on a motion by Vice-Chairman Mantzey, seconded by Committee Member Haeckler, the Committee unanimously voted to close the public hearing and recommend filing of the Semiannual Report with respect to the progress of the Capital Improvements Plan for Roadway and Utility Impact Fees, with a vote of 9-0-0.
