

Appeal request for 3255, 3265,3275 N McDonald St. McKinney TX.
75071

- 1.) This is an official request to appeal the director of planning's decision for alternate parking lot landscape design to move (5) trees from the initial location of the landscape plan to current locations as depicted on the attached drawing.
- 2.) The alternate parking lot landscape design is also to remove all grass directly around all 3 buildings in lieu of a crushed stone called Gray Mist.
- 3.) Two trees need to be removed due to the requirements of Oncor for transformer locations.
- 4.) One tree needs to be moved due to the screening wall that was inadvertently set right in the center of the terminus Island and not allowing room for a canopy tree.
- 5.) One tree needs to be moved due to irrigation to the terminus island that was inadvertently left out before the concrete was poured.
- 6.) One tree has been moved so that it will not screen out the monument sign.

I respectfully ask you to consider my request so that we may finish the completion of the site by Christmas.
