RE: Removal of School Zone Formerly Serving Finch Elementary School
SH 5 (McDonald Avenue) at Elm Street

Dear Mr. Tilke:

This is written in support of the proposed removal of the school zone formerly serving Finch Elementary School along SH 5 (McDonald Street) at Elm Street. MISD has removed the crossing of SH 5 at Elm Street from the designated walking route to Finch Elementary School and now provides bus service to students needing to cross SH 5 at Elm Street. MISD requests that all other school zones for Finch Elementary School remain active and unaffected by this modification.

For reference, the school zone proposed for removal is specifically described in Section 62-260 (6) of the City of McKinney Code of Ordinances. The zone extends from a point 350 feet north of Elm Street southward to a point 350 feet south of Elm Street. MISD supports complete removal of this school zone.

If you have any questions or need additional information please feel free to contact me at (469) 302-4096.

Sincerely,

Robert Montgomery
Director of Safety, Security and Transportation
