

MCM 1 Public Education, Outreach and Involvement

Public Education and Outreach					
Residents					
BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	New, Revised, or Replaced
BMP 1.1 Utility Bill Insert	Continue implementation of existing program distributing educational material to residents via utility bill inserts. The inserts will include stormwater education information specifically relating to high priority community-wide issues.	Engineering Communications & Marketing	* Develop an outline of the information for the high priority community-wide issues to be communicated over a 5 year period. * Distribute educational flyer as a utility bill.	Year 1 (by December, 2015)	Revised
			* Distribute educational flyer as a utility bill insert one time per year.	Year 2 – 5 (by December, 2016-2018, respectively)	Revised
BMP 1.2 <i>Texas SmartScape™</i> Information	Continue implementation of existing program promoting Texas SmartScape™ informational materials and Website developed by NCTCOG.	Engineering Environmental Education Communications & Marketing	* Participate in and support existing <i>Texas SmartScape™</i> program. * Distribute information a minimum of one time per year. * Continue to provide a link from McKinney's stormwater website to the <i>Texas SmartScape™</i> website.	Year 1 - 5	Revised

MCM 1 Public Education, Outreach and Involvement

Public Education and Outreach					
Residents					
BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	New, Revised, or Replaced
BMP 1.3 StormWater Web Site	Continue implementation of existing stormwater web site for the city. The web site will include stormwater education per the TCEQ general permit guidelines. The web site will also provide specific information regarding the City's TPDES Phase II program, educational and participatory opportunities, and links to other local, state, and national stormwater web sites.	Engineering Communications & Marketing	<ul style="list-style-type: none"> * Continue to revise/update website as needed. * Continue to collect feedback regarding McKinney's stormwater program solicited via the web site. 	Year 1 - 5	Revised

MCM 1 Public Education, Outreach and Involvement

Public Education and Outreach					
Residents					
BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	New, Revised, or Replaced
BMP 1.4 Classroom Education	Continue to provide education opportunities and curriculum materials to school aged children. Materials and curriculum will be assessed and selected from existing, readily available programs, and through discussions with public and private school staff.	Engineering Environmental Education	<ul style="list-style-type: none"> * Continue to offer programs, educational opportunities and resources on available stormwater educational material to public and private school staff. * Track the number of requests and presentations. 	Year 1 - 5	Revised
BMP 1.5 StormWater Book Covers	Continue to provide stormwater book covers to MISD for distribution.	Engineering	Each year, develop, create, and provide stormwater book covers to MISD for their distribution. Each year, provide enough covers to supply all MISD school children with a book cover, or provide a quantity requested by MISD.	Year 1 - 5	Revised

MCM 1 Public Education, Outreach and Involvement

Public Education and Outreach					
Residents					
BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	New, Revised, or Replaced
BMP 1.6 "Stencil Town" Storm Drain Markers	Continue to place storm drain markers on local storm drains in an effort to increase awareness and to prevent dumping into the storm drain system.	Engineering Water Utilities and Infrastructure GIS	* Assess the number of storm drain inlets not currently marked. * Determine the number of inlets that would need to be marked in order to attain a goal of having 25% of all of the City's inlets marked, excluding inlets on arterial roads and highways.	Year 1	Revised
			Continue implementation of the City's plan for installing storm drain markers, achieving the 25% marked goal by the end of the 5th year.	Year 1 - 5	Revised
			Require marking of new inlets by developers and contractors upon completion of projects whose plans were submitted and reviewed after September 2008.	Year 1 - 5	New

MCM 1 Public Education, Outreach and Involvement

Public Education and Outreach					
Residents					
BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	New, Revised, or Replaced
BMP 1.7 "Public Reference"	Provide educational material for reference. Materials to be provided will include copies of educational materials used for other educational BMPs, information regarding McKinney's stormwater program, and other miscellaneous stormwater educational material as deemed appropriate.	Engineering Environmental Education	<ul style="list-style-type: none"> * Provide copies of educational materials through the StormWater Web Site (BMP 1.3) and at the City's public facilities, ex. public library, recreation centers, performing arts center and Environmental Education Office. * A description of the materials made available online and at City's public facilities will be included in the Annual Report. 	Year 1 - 5	Revised
BMP 1.8 StormWater Video	Continue to develop or acquire stormwater videos for display on McKinney's Public Access Channel.	Engineering Communications & Marketing	<ul style="list-style-type: none"> * Air a minimum of three stormwater educational videos, developed or acquired by the City, on the City's public access channel. * Provide copies of videos through the StormWater Web Site (BMP 1.3) and make available to public and private schools for use in classroom education. 	Year 1 - 5	Revised

MCM 1 Public Education, Outreach and Involvement

Public Education and Outreach					
Residents					
BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	New, Revised, or Replaced
BMP 1.9 Bacteria Specific Outreach	Develop a program to distribute bacteria-specific public education materials. The information will include stormwater education information specifically relating to issues listed in Part II.D.4.(a)(5).	Engineering Environmental Education Communications & Marketing	* Participate in and support existing stormwater education campaigns addressing bacteria such as <i>Doo the Right Thing</i> , <i>Texas SmartScape™</i> (BMP 1.2), Fats Oil & Grease, and others. * Distribute information a minimum of one time per year.	Year 1 - 5	New
BMP 1.10 City Newsletter Articles	Develop a program to distribute educational material to residents through city newsletter articles. The inserts will include stormwater education information specifically relating to high priority community-wide issues.	Engineering Communications & Marketing	Distribute one article addressing stormwater education information relating to high priority community-wide issues in the citywide newsletter a minimum of one time per year.	Year 1 - 5	New

MCM 1 Public Education, Outreach and Involvement

DRAFT

MCM 2 Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 2.1 Dry Weather Screening	Conduct dry weather field screening of priority areas.	Engineering GIS	Develop a plan to identify field screening stations and priority areas that will result in screening all of the priority areas by the end of the permit term.	Year 1	New
			<ul style="list-style-type: none"> * Implement the City's plan for screening all priority areas by the end of the 5th year. * Update priority area list and field screening stations each year. 	Year 2 - 5	Revised
BMP 2.2 Wastewater Implementation Strategies (previously labeled Sanitary Sewer Smoke Testing)	Continue existing programs in order to reduce cross connections, failures and overflows of sanitary sewers, grease traps, and grit traps.	Water /Wastewater Engineering	<ul style="list-style-type: none"> * Continue implementation of existing Sewer System Evaluation Study (SSES) and Capacity, Management, Operations and Maintenance (CMOM) Program to identify potential cross-connections and inflow/infiltration (I/I) with the City's storm sewer system. * Track the linear feet of sewer lines tested, number of detected breaks, and the number of repairs. * Monitor grease and grit traps as part of the existing pretreatment program. 	Year 1 - 5	Revised

MCM 2 Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
<p style="text-align: center;">BMP 2.3 Illicit Discharge Investigation, Response, Elimination and Enforcement</p>	<p>Continue to conduct investigations to determine the source of illicit connections and illegal dumping activities.</p>	<p>Engineering Water Utilities and Infrastructure</p>	<p>* Assess regulatory authority and update ordinances, if needed, to provide the City with additional authority to investigate, trace, identify and eliminate suspected illicit connections or illegal dumping activities in accordance with TCEQ requirements.</p> <p>* Continue to conduct investigations in accordance with investigation procedures established in first permit term.</p> <p>* Revise standard procedures to include at a minimum, documenting the date(s) the illicit discharge was observed; the results of the investigation; any follow-up of the investigation; and the date the investigation was closed.</p>	<p>Year 1 - 2</p>	<p>Revised</p>

MCM 2 Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 2.3 Illicit Discharge Investigation, Response, Elimination and Enforcement (Cont.)	Continue to conduct investigations to determine the source of illicit connections and illegal dumping activities.	Engineering Water Utilities and Infrastructure	<ul style="list-style-type: none"> * Conduct investigations in accordance with <i>revised</i> investigation procedures. * Conduct a follow-up investigation or field screening, consistent with BMP 2.1, to verify that the discharge has been eliminated. 	Year 3 - 5	Revised
			<ul style="list-style-type: none"> * Continue to eliminate identified sources of illicit discharges or demonstrate escalated enforcement actions against the responsible entity. * Track all investigations identified through hotline information, dry weather screening, wastewater implementation strategies, or other. 	Year 1 - 5	Revised
BMP 2.4 Spill Response	Continue implementation of existing spill response procedures and training.	Fire Services Engineering Water Utilities and Infrastructure	<ul style="list-style-type: none"> * Continue implementation of existing spill response procedures and training. * Track number of responses to spills / Hazmat incidents. * Track the number of training hours for appropriate employees. 	Year 1 - 5	Revised

MCM 2 Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 2.5 Storm Sewer System Map	Revise existing storm sewer map in accordance with TCEQ requirements.	GIS Engineering Water Utilities and Infrastructure	Update existing GIS mapping information for the City's storm sewer system to include priority areas identified in BMP 2.1 and name of surface waters.	Year 1	Revised
BMP 2.6 Update Storm Sewer System Map	Update the City's storm sewer system map as needed to record new pipes/systems created by new development.	GIS Engineering Water Utilities and Infrastructure	<p>* Continue the existing program of triggering/completing storm sewer mapping changes as permits and as-built plans are filed for new construction activities.</p> <p>* Track number of outfalls, field screening locations, priority areas and drainage areas added to storm sewer outfall map.</p>	Year 2 - 5	Revised
BMP 2.7 Public Reporting of Illicit Discharges and Spills	See BMP 1.18 Stormwater hotline	<i>Refer to Public Involvement MCM for goals and schedule.</i>			
	See BMP 3.5 Receipt and Consideration of Information from Public	<i>Refer to Construction Site Runoff MCM for goals and schedule.</i>			

MCM 2 Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 2.8 Education and Training	Participate in the NCTCOG Regional Stormwater Management Program's IDDE Task Force.	Engineering	Attend and stay informed of 1 Task Force meeting/year	Year 1 - 5	New
	See BMP 1.10 City Employee Education	<i>Refer to Public Involvement MCM for goals and schedule.</i>			
	See BMP 1.13 City Inspector Training	<i>Refer to Public Involvement MCM for goals and schedule.</i>			
	See BMP 5.7 Employee Training	<i>Refer to Pollution Prevention/Good Housekeeping for Municipal Operations MCM for goals and schedule.</i>			
BMP 2.9 On-site Sewage Facilities (OSSF)	The City of McKinney has an existing program to reduce the number of failing septic systems.	Engineering Water Utilities and Infrastructure	* Report OSSF concerns to the Collin County Development Services (entity with authority over OSSF). * Track number of concerns reported.	Year 1 - 5	New
See BMP 1.20 Household Hazardous Waste Collection and Recycling	<i>Refer to Public Involvement MCM for goals and schedule.</i>				

MCM 3 Construction Site Runoff

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 3.1 Controlling Ordinances	The City of McKinney has a thorough, existing construction site erosion control program.	Engineering Building Inspections	* Continue implementation of existing programs. * Assess regulatory authority and update ordinances.	Year 1 - 5	Revised
BMP 3.2 Requirements for Construction Site Contractors					
BMP 3.3 Site Plan Review					
BMP 3.4 Site Inspection and Enforcement					
BMP 3.5 Receipt and Consideration of Information from Public	Continue implementation of existing program for the receipt and consideration of public comments regarding erosion control.	Engineering Building Inspections	Continue implementation of system for receiving, considering, and tracking comments from the public regarding the City's erosion control program and for specific project-related complaints.	Year 1 - 5	Revised

MCM 3 Construction Site Runoff

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 3.6 Review Erosion and Sediment Control Program	Continue to review the effectiveness, appropriateness, and cost-effectiveness of the existing erosion control program.	Engineering Building Inspections	Continue existing programs plus review existing manuals and documents referencing erosion control.	Year 1	Revised
			Adopt any recommended changes from Year 1.	Year 2	Revised
			No formal review. Continue existing and/or revised programs.	Year 3- 5	Revised
BMP 3.7 Construction Site Inventory	Conduct a program for tracking active public and private construction sites.	Engineering Building Inspections	Develop a system for receiving and tracking active public and private construction sites.	Year 1 - 3	New
			Implement system.	Year 4 - 5	

MCM 3 Construction Site Runoff

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 3.8 MS4 Staff Training	Continue to train City construction site erosion control inspectors.	Engineering	<ul style="list-style-type: none"> * Provide a minimum of 8 hours of construction site erosion control training to inspection personnel at least once every three years. * Provide a minimum of 3 hours of construction site erosion control training to new inspection employees within 6 months of the employee's start date. * Track training hours and number of attendees. 	Year 1 - 5	Revised
BMP 3.9 Pre-Development Review and Other Construction Meetings	The City of McKinney meets with Developers, Engineers, and Contractors to review City expectations and regulations for construction site erosion control prior to issuance of a permit.	Engineering	<ul style="list-style-type: none"> * Attend meetings to discuss stormwater concerns with attendees and distribute materials as deemed necessary. * Track number of meetings. 	Year 1 - 5	New

MCM 4 Post-Construction Stormwater Management in New Development/Redevelopment

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
4.1 Post Construction Site Runoff Controls	The City of McKinney has an existing post-construction stormwater management control program.	Engineering Planning	<ul style="list-style-type: none"> * Continue implementation of existing programs plus review existing manuals and documents referencing post-construction stormwater management. * Assess regulatory authority and update ordinances. 	Year 1	Replace
			Adopt any recommended changes from Year 1.	Year 2	Replace
			<ul style="list-style-type: none"> * Continue existing and/or revised programs. * Review changes in technology and practices, other city programs and other sources to ensure program remains applicable. * Update the program to reflect any necessary changes as determined in the review. 	Year 3- 5	Replace

MCM 4 Post-Construction Stormwater Management in New Development/Redevelopment

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 4.2 Engineering Design Review	Continue existing design review process.	Engineering	* Continue and evaluate existing design review process of all construction projects, one acre in size, or larger, to verify compliance with the city's stormwater ordinance. * Track number of construction projects reviewed.	Year 1 - 5	Revised
			Update the design review process to reflect any necessary changes as determined in the evaluation.	Year 3 - 5	New
BMP 4.3 Land Use Plan	Continue to utilize the City's existing land use plan.	Planning	*Continue implementing existing land use plan. *Evaluate existing land use plan and provide recommendations considering environmental and stormwater management practices. * Update the Land Use Plan to reflect any necessary changes as determined in the evaluation.	Year 1 - 5	Revised
BMP 4.4 Maintenance Agreements	Develop and implement a program for tracking maintenance agreements for structural stormwater controls.	Engineering Building Inspections	Develop a system for reviewing and tracking maintenance agreements of post-construction stormwater management controls.	Year 1 - 3	New
			Implement system.	Year 4 - 5	New

MCM 4 Post-Construction Stormwater Management in New Development/Redevelopment

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 4.5 Inspections & Enforcement	Develop and implement an inspection program to ensure that all post construction stormwater control measures are operating correctly and are being maintained consistent with its applicable maintenance plan.	Engineering Building Inspections Water Utilities and Infrastructure	* Assess regulatory authority and adopt new ordinances if needed to provide the City with the authority to inspect and enforce maintenance of post-construction stormwater controls in accordance with TCEQ requirements. * Develop a tracking, inspection and enforcement procedure for structural stormwater controls.	Year 1 - 3	New
			* Implement procedure. * Utilize the regulatory authority developed in the previous permit year. * Track inspections and enforcement actions.	Year 4 - 5	New
BMP 4.6 Healthy Creeks and Lakes Initiative	The City of McKinney has an existing program to address erosion and flooding concerns.	Engineering Water Utilities and Infrastructure	Continue implementation of system for receiving, considering, tracking and resolving concerns regarding erosion and flooding issues.	Year 1 - 5	New

MCM 4 Post-Construction Stormwater Management in New Development/Redevelopment

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 4.7 Regional Water Utilities and Infrastructure Program	The City of McKinney currently participates in the NCTCOG-sponsored Regional Water Utilities and Infrastructure Program.	Engineering Water Utilities and Infrastructure	<ul style="list-style-type: none"> * Continue to participate financially in support of the NCTCOG-sponsored Regional Water Utilities and Infrastructure Program throughout permit term or until fiscal support is no longer required. * Continue to incorporate Water Utilities and Infrastructure Construction Standards, Sustainable Public Rights of Way, integrated Stormwater Management (iSWM™) Program, and Hydrologic/Flooding Technical Assistance components congruent with McKinney's ordinances. * Attend and stay informed of 1 meeting/year 	Year 1 - 5	New

MCM 5 Pollution Prevention/Good Housekeeping for Municipal Operations

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 5.1 Inventory & Assessment	Evaluate owned and operated municipal facilities and stormwater controls and their potential to discharge pollutants into stormwater.	Engineering Building Operations	Develop a program to inventory and assess owned and operated municipal facilities and stormwater controls by evaluating their potential to discharge pollutants into stormwater and identifying <i>high priority</i> facilities in accordance with Part III.B.5.(c)(4)b.	Year 1 - 2	New
			* Implement program. * Document, maintain and update assessment.	Year 3 - 5	New
BMP 5.2 Inspection	Develop and implement an inspection program of <i>high priority</i> facilities.	Engineering	Develop stormwater pollution prevention inspection procedures.	Year 1 - 3	New
			Inspect each <i>high priority</i> facility at least once during the permit term.	Year 4 - 5	New
BMP 5.3 Facilities Map	Develop a map of owned and operated municipal facilities and stormwater controls in accordance with TCEQ requirements.	GIS Engineering Water Utilities and Infrastructure	Collect and map in GIS information for the owned and operated municipal facilities and stormwater controls.	Year 1 - 3	New
			Continue mapping changes as facilities and stormwater controls are updated.	Year 4 - 5	New

MCM 5 Pollution Prevention/Good Housekeeping for Municipal Operations

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 5.4 Employee Training	Continue implementation of good housekeeping and pollution prevention training to existing operations employee training programs.	Engineering Water Utilities and Infrastructure	* Identify operations employee personnel that require training. * Provide good-housekeeping/pollution prevention operations training to personnel yearly. * Train all new operations employees within six months of the employee's start date. * Track training hours and number of attendees.	Year 1 - 5	Revised
	See BMP 1.16 City Employee Education				
BMP 5.5 Standard Operating Procedures (SOPs)	Evaluate SOPs and stormwater controls at <i>high priority</i> facilities.	Engineering Water Utilities and Infrastructure	See BMP 5.1 Inventory & Assessment.	Year 1 - 2	New
			Develop a SOP for each <i>high priority</i> facility identified in the previous year. Include stormwater controls listed in Part III.B.5.(c)(6).	Year 3 - 4	New
			Implement SOPs for stormwater controls listed in the previous year and maintain in accessible location.	Year 5	New

MCM 5 Pollution Prevention/Good Housekeeping for Municipal Operations

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 5.6 O&M	Review operation and maintenance (O&M) activities with the potential to discharge pollutants into stormwater.	Engineering Water Utilities and Infrastructure Building Operations	* Develop a program to evaluate O&M activities listed in Part III.B.5.(b)(5)a and identify pollutants associated with O&M activities. * Develop stormwater pollution prevention inspection procedures.	Year 1 - 3	New
			* Implement program developed in the previous year. * Inspect each activity at least once during the permit term. * Maintain a log of inspections.	Year 4 - 5	New
BMP 5.7 Contractor Oversight	Develop a program to ensure contractors are using appropriate control measures and SOPs.	Engineering Water Utilities and Infrastructure	* Develop a program to identify contractors that perform activities listed in Part III.B.5.(b)(5)a and Part III.B.5.(c)(6) on municipal owned facilities. * Develop compliance and oversight procedure(s) for contractors and activities identified.	Year 1 - 3	New
			Implement program and procedures listed in the previous year.	Year 4 - 5	New

MCM 5 Pollution Prevention/Good Housekeeping for Municipal Operations

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 5.8 Storm Sewer Cleaning	Remove floatables, debris, sediment, etc. from inlets and pipes as needed to maintain capacity and to reduce stormwater pollution.	Water Utilities and Infrastructure	<ul style="list-style-type: none"> * Continue implementation of existing inspection schedule. * Clean inlets as necessary. * Clean system as needed in response to complaints or reported problems. * Review results and complaints to identify and prioritize problem areas for increased inspection. * Track volume of waste collected. 	Year 1 - 5	Revised
BMP 5.9 Street Sweeping	Continue existing street sweeping program.	Water Utilities and Infrastructure	<ul style="list-style-type: none"> * Continue implementation of existing street sweeping schedule. * Sweep major arterials once per quarter, collectors twice per year, and residential streets once per year. * Track volume of waste collected. 	Year 1 - 5	Revised
BMP 5.10 Landscape Maintenance	Review landscaping maintenance practices for municipal owned and operated public spaces.	Parks, Recreation & Open Space Code Compliance	* Develop a program to identify and inventory municipal owned and operated public spaces, as well as evaluate the materials used, activities performed and application schedules.	Year 1 - 3	New
		Water Utilities and Infrastructure Engineering	<ul style="list-style-type: none"> * Implement the program listed in the previous year. * Maintain and update inventories. 	Year 4 - 5	New

MCM 5 Pollution Prevention/Good Housekeeping for Municipal Operations

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 5.11 Herbicide Management	Continue existing herbicide management program.	Parks, Recreation & Open Space Water Utilities and Infrastructure	* Continue McKinney's existing herbicide management program following all Federal, State and local laws concerning the handling and application of herbicides as well as any appropriate documentation. * Track training and licensure as required. * Dispose of unused materials through Household Hazardous Waste Collection and Recycling program (see BMP 1.21) or other approved methods.	Year 1 - 5	Revised

MCM 5 Pollution Prevention/Good Housekeeping for Municipal Operations

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 5.12 Pesticide Management	Continue existing pesticide management program.	Parks, Recreation & Open Space Code Compliance Water Utilities and Infrastructure	* Continue McKinney's existing pesticide management program following all Federal, State and local laws concerning the handling and application of pesticides as well as any appropriate documentation. * Track training and licensure as required. * Dispose of unused materials through Household Hazardous Waste Collection and Recycling program (see BMP 1.21) or other approved methods.	Year 1 - 5	Revised
			* Evaluate use of non-chemical pesticides. * Update the pesticide management program to reflect any necessary changes as determined in the evaluation.	Year 2 - 4	New
BMP 5.13 Safe Material Storage	Continue existing material storage management practices.	Engineering Environmental Services	* Continue the existing safe material storage practices. * Perform inspections of material storage facilities annually. * Include any inspection based changes in the annual report.	Year 1 - 5	Revised

MCM 5 Pollution Prevention/Good Housekeeping for Municipal Operations

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revised, New or Replaced
BMP 5.14 Fleet Service Center SWPPP	Continue to implement structural and non-structural controls.	Engineering Fleet Services Environmental Services	* Continue to implement the existing Fleet Service Center SWPPP. * Perform inspections established in the SWPPP. * Include any inspection based changes in the annual report.	Year 1 - 5	Revised
BMP 5.15 Airport SWPPP	Continue to implement the existing airport SWPPP	McKinney National Airport	* Continue to implement the existing airport SWPPP. * A private contractor is used to perform inspections established in the SWPPP. * Include any inspection based changes in the annual report.	Year 1 - 5	Revised
BMP 5.16 Proper Waste Disposal	Ensure that any work performed by, or on behalf of, the City shall follow proper disposal requirements as associated with dredge material, accumulated sediments and floatable materials.	Parks, Recreation & Open Space Water Utilities and Infrastructure	Gather and report information on the disposal of these items as it occurs.	Year 1 - 5	New
BMP 4.4 Maintenance Agreements	<i>Refer to Post-Construction Stormwater Management in New Development/Redevelopment MCM for goals and schedule.</i>				

MCM 6 Industrial Stormwater Sources

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revise, New or Remove
BMP 6.1 Industrial Sources	Identify municipal facilities listed in Part III.B.6(a)1 or that may be subject to an Industrial stormwater permit. Control pollutants in stormwater discharges from these facilities.	Engineering GIS Building Operations	* Develop a program to identify and inventory municipal facilities listed in Part III.B.6(a)1 or that may be subject to an Industrial stormwater permit and evaluate facilities potential to discharge pollutants into stormwater and whether implementing a control measure is necessary. * Develop stormwater pollution prevention inspection procedures.	Year 1 – 3	New
			* Implement program developed in the previous year * Inspect identified facilities at least once during the permit term. * Maintain and update inventory.	Year 4 – 5	New

MCM 6 Industrial Stormwater Sources

BMP ID #	BMP Description	Responsible Dept.	Measurable Goal(s)	Schedule	Revise, New or Remove
BMP 6.2 Bacteria Sources	Develop a program to identify and target potential sources of bacteria pollution.	Engineering	* Develop a program to identify and inspect private and public facilities that may be a potential source of bacteria pollution.	Year 1 - 3	New
			* Implement the program developed in the previous year. * Maintain and update inventory.	Year 4 - 5	New
