

HALL RE-IMAGINE TEAM UPDATE

- The booth
- Fiction
- Multi-Media
- Microfilm and Genealogy area
- Checkout
- What's next?

WHERE WE ARE

Over the last few months we have made significant progress on the proposals presented by the Re-Imagine Team. As you already know we have moved YA and Midgrade to the upper east wing. This means we have all the children's through YA material on the east half of the building.

The Booth!

The booth was moved from the YA area to the public computer area where it fits quite nicely . We will be working to add a monitor to the booth to enhance our display capabilities as well as allow for group work.

In an effort to better utilize our space, we have moved the DVDs and Blu-Rays to the lower west area of the library. This allows us to have all adult multi-media in the same area, audiobooks, DVDs, Blu-Rays, including nonfiction multi-media.

We were also able to rearrange the seating areas to better serve the needs of our patrons, creating space for study tables and lounge area seating.

Genealogy and Local History

Checkout Area

Now that we have shifted to a mobile staffing model we can better utilize the area behind the selfcheck machines. With the thought to move the book drop to the center rather than around the corner.

Plans for the area:

- Covering back side of self check counters
- Relocation for ILLs
- Use for wooden shelves, for signage and aesthetics

Timeline and next steps

The next goal is to get Juvenile Fiction and Juvenile Graphic Novels to the upper east wing.

Steps to get us there:

- Weed Adult BIO and change out the inner shelves where BLU/DVD used to be to book shelving
- Move Adult BIO to these shelves after spring break
- Shift JBIO and JNF back
- Move GNJF and JF upstairs
