14-1194 Mayor Loughmiller called for Consideration/Discussion/Action on a Resolution Authorizing the Interim City Manager to Enter into a 2-year Maintenance Reimbursement Agreement with Stonebridge Ranch Community Association, Inc. Council member Keever requested this item be pulled down for discussion. Director of Parks, Recreation and Open Spaces Rhoda Savage presented an overview of the item. Since 1994, the City has entered into a Maintenance Reimbursement Agreement with Stonebridge Ranch HOA allowing the City to reimburse a portion of the cost of about 50 acres of median landscaping within the Stonebridge development. The term is for two years and the rate of reimbursement is essentially a 1:1 match. The cost is approximately \$8,000 per acre, with the City reimbursing Stonebridge about \$3,700 per acre. Mayor Loughmiller stated there are three options: maintain the current level of service without the increase; approve the increase requested; or lower the City's contribution from a policy standpoint to what the City generally spends on median landscaping throughout the City. Council unanimously approved the motion by Council member Keever, seconded

by Council member Harris to table the item to the December 1, 2014 meeting.

END OF CONSENT

14-151Z4 Mayor Loughmiller called for a Public Hearing to Consider/Discuss/Act on a Request to Rezone a Portion of the Property from "AG" - Agricultural District, "PD" - Planned Development District and "CC" - Corridor Commercial Overlay District to "SF5" - Single Family Residential District and "CC" - Corridor Commercial Overlay District; and Rezone a Portion of the Property from "PD" - Planned Development District and "CC" - Corridor Commercial Overlay District to "C2" - Local Commercial District and "CC" - Corridor Commercial Overlay District, Located Approximately 1,100 Feet West of Custer Road and on the South Side of U.S. Highway 380 (University Drive). Director of Planning Michael Quint stated that the applicant is requesting to rezone the subject property from PD to SF5 and C2 Local Commercial zoning. The property is currently zoned for commercial, office, and light manufacturing uses, specifically mini warehouses. In its current zoning there are concerns regarding the access to the property from Custer Road. The drainage feature that bisects the property makes traffic across the property problematic for commercial uses. The request is in opposition to the Council's stated goals of preserving non-residential tax base and is in non-conformance with the Comprehensive Plan which designates this property for office use; however, Staff has no significant objections to approving the applicant's request. Mr. Quint stated that with the property being located next to the Aero Country airport, the appropriate time to involve the FAA would be during the platting process, at which time the FAA could mandate that the plat be modified to eliminate lots within a certain distance to the airport runway. If the PD is determined to be the appropriate zoning, a sign could be placed on the property announcing it is located next to an airport. The land plan tied to the existing zoning

does not allow for a buffer but does require mini warehouses next to the airport property with office use to the east of the water feature and commercial use next to Highway 380. The 500' buffer was originally a landscape buffer and was established in negotiation with Aero Country in 1998. In 2008, the buffer on the property to the south of the subject property was removed. Applicant, Mr. Bob Roeder, 1700 Redbud, Suite 300, McKinney, stated that the FAA deals with air space and not ground use issues. They have also dealt with these types of conflicts for decades and have volumes of regulations. When the Virginia Hills subdivision was built next to the airport years ago, Council ruled that there would be a 500' wide buffer of land between any housing and the airport property. Mr. Roeder stated he is unaware of any builder that has plans to build in the commercial area along Highway 380 at this time. The developer is anticipating homes to be two-story, as allowed in the SF5 zoning, with an estimated value of \$450,000 to \$500,000. Access to the east of the property is for emergency purposes only through a fire lane easement. Access through Virginia Hills would only be available for emergencies through a locked gate, which was requested by the Virginia Hills residents. Mayor Loughmiller called for public comment.
