### **Proposed Changes to the Multi-Family Policy**

- If the vision for the REC overlay is no longer based on an urban vision, Staff recommends that the exemption of the REC area (Sector 6) from the Multi-Family Policy be removed
- Creation of a new exemption and definition for urban multi-family residential developments (City-wide) which incorporates, at a minimum, the following urban design elements:
  - Structured and/or tuck-under garage parking for no less than 80% of the total required parking;
  - Ground floor units adjacent to a public right-of-way are designed and constructed to permit commercial uses with a minimum 12 feet clear ceiling height;
  - Meaningful, centrally located internal open spaces (parks, plazas, courtyards, and squares) offering public gathering area; and
  - 10 foot wide public sidewalks adjacent to all public roadways
