16-527 Mayor Loughmiller called for Consideration/Discussion/Action on an Ordinance Authorizing the Issuance of "City of McKinney, Texas, Waterworks and Sewer System Revenue Refunding and Improvement

Bonds, Series 2016", and Delegating Matters Relating to the Sale and Issuance of Said Bonds to an Authorized City Official(s). Acting Finance Director Mark Holloway stated the next two items are general obligation and water wastewater bond sales for this year. Last week, we had our ratings call with S&P and Moody's and they affirmed our Aa1 rating for bond and reaffirmed our Aa2 rating for water wastewater. S&P at this point affirmed our AAA rating on the General Obligation side and we are waiting to receive the water wastewater rating. With the new issue on the general obligation side through our 2015 authorization, we are asking for \$11.7 million for municipal facilities, of which \$9.5 million would be for the John and Judy Gay Library expansion and \$3 million for public safety. We are asking for \$4.4 million in drainage money and \$2.2 million in the 2010 authorization for the Public Works facility. Along with the new issue, we have a refunding opportunity of our 2006-2007 bond issues. We expect with the lower interest rates to have net savings of about \$7 million. On the revenue bond side, we are asking for \$18.5 million in new money. Of that, \$6.5 million is for substandard mains, \$6.3 million for pump station improvements, \$2.6 for main participations, \$1.6 for our lift stations and \$1.4 million for waterline improvements. We have a refunding opportunity with the 2006-2007 bonds of \$2 million. This will be a competitive sale. In previous years we have had negotiated sales. We anticipate closing on the funds on June 15th. Mr. John Carmine and Ms. Jennifer Art, with Public Financial Management, stated that a competitive bidding process is essentially a process that is governed by a document called a Notice of Sale in which we establish four corners of a bidding parameter. The underwriting firms reestablish what the maximum coupon can be, the length of the amortization, certain parameters in which bidders must bid and then it is a competitive process in which the underwriters extend their capital. The lowest bidder wins as long as it fits within the four corners of the parameters that we include in the Notice of

Sale. Council unanimously approved the motion by Council member Rogers, seconded by Council member Branch, to approve an Ordinance authorizing the Issuance of "City of McKinney, Texas, Waterworks and Sewer System Revenue Refunding and Improvement Bonds, Series 2016", and delegating matters relating to the sale and issuance of said bonds to an authorized City Official(s). Brian Whelan, Costco, stated he is very thankful to have the opportunity to be before the Council. Costco has been working with City staff for some time evaluating the McKinney market, asking questions, and trying to qualify the market for entry of our company. Mr. Whelan thanked the City staff for their responsiveness and professionalism that they have given us through the process. The growth of this area is what has caught our attention and made the opportunity for us to pursue this market. Relative to this specific project, we are planning to construct a building of approximately 150,000 square feet. We would have about 740 parking stalls and offer a members only fuel facility. This building would have approximately 150 to 175 employees to start. We are trying to create job opportunities that are careers for people and not just transitional. City staff has provided wonderful information about where the housing subdivisions have been approved, where the building permits were issued last year, the value of the properties, and having it come from you is very important. This location will be a little larger than the Frisco facility. Council unanimously
