It will have a drive-through but is 70% sit down and will be similar to a Petra type restaurant where you order at the counter and they bring your food. We are also looking at approximately 7,000 square feet of additional restaurant space and 18,000 square feet of retail space with two high-quality sit-down restaurants and the remainder would be retail space. Chief Financial Officer Rodney Rhoades stated that this is the planned issuance of the new revenue bonds for water and sewer in the amount of \$4.765 million. The City also has the opportunity to do a refunding of approximately \$8.5 million of 2005 bonds. The action will authorize the Interim City Manager and the Chief Financial Officer to act as pricing agents on behalf of the City. Mr. Rhodes stated that refunding the 2005 bonds, does not extend the period of the bonds, but rather refunds them at a lower interest rate. We anticipate the savings to be in the \$600,000 to \$700,000 range. Mayor Loughmiller called for Council and Manager Comments.

Council member Day stated that he is proud of the citizens of McKinney. I think tonight is a very good example of why I'm proud. We had a situation that none of us wanted and we all regretted. To the black community particularly, they have come out and expressed their dismay and frustration and their expectation. But they have done so in a rational, reasonable, and adult manner. We've had several of our ministers step up and point out that we can't solve problems if we hate each other and fight with each other. We have to work together. This is all of our community. Our character is how you deal with adverse situations not how you deal with the good times. McKinney has faced a difficult situation and we are still working through it. I want to point out that the prosperity we enjoy in this country is possible only because we have a rule of law. Civilization is based on this rule of law. Without the police and courts, property and lives can be destroyed and taken. Our schools, our homes, and our shopping centers are safe because of our police department. It does not mean we are perfect and we don't make mistakes. But by and large, they keep us safe and for that they deserve our thanks and our respect. They have a very difficult job. During this pool party, the security guard could not handle the situation and the parents could not. The police are always the last resort. I appreciate our citizens. I thank you very much for how you have approached this. And I thank our police department.

Council member Pogue stated that Mr. Day said it very well. I wanted to address one comment tonight particular in dealing with a misunderstanding of the cash prize to Officer Casebolt. To my knowledge, there is no cash prize and no settlement. With regards to other comments about the restrooms and parks, we are in the process of our 10 year parks plan. If the November Bond Election passes, McKinney Community Development Corporation has a potential to impact our parks department in a large way going forward by redirecting the MCDC monies into the parks program. Mr. Pogue asked Parks Department Director Ms. Savage to consider looking at those particular

issues regarding the water fountains and restrooms for all of our parks. I want to thank all of you that came out tonight and shared your concerns and your voice.

Council member Harris stated that this is his last regular City Council meeting. Councilwoman elect Rath will be sworn in next Monday and I will have comments then. As far as the subject matter discussed this evening, I want to point out that there are always areas for us to learn from. As the Mayor said in one of his statements, one person does not define a community, nor does one incident. I am particularly proud of how this community has handled this post the incident. And I would certainly like to thank everybody that has shown up this evening to voice their opinions and concerns. I would also like to show some appreciation for those people who had points that had differing opinions or demonstrated opposition to what had transpired in an orderly fashion. I happened to attend some of the demonstrations and I think as a community moving forward, we did a very good job in voicing all of the different sides that people wanted to demonstrate their opinions on. Certainly, I want to thank the police department for how they have handled the issue post incident. They are there for the public safety of all of us as a community. I know many of the officers on the Police Department and I think it is very important for everybody in the community to understand that they are there to serve and protect us. They have had a very rough couple of weeks with all of the national media and a lot of the demonstrators. But yet, they are still there, taking care of the community and I want to express appreciation for that. Certainly, I want to show appreciation to the Mayor, Police Chief, City Manager, Assistant City Managers, staff, and members of the community that have stepped up. You don't hear their name all the time but there are many members of the community that have facilitated discussions along with the ministers and pastors in our community. They have all come together and have worked to pull the community together and address these incidents in a way that we can move forward. I was raised on the South side of Chicago. My high school years were 1968 through the Democratic National Convention and the riots. I have seen all of this in my high school years. And seeing this community and knowing Baltimore and other areas of the country, this is not like those cities. This City will demonstrate we are the best City and are one of the finest

organizations and communities in the United States and we will move forward with this group of people leading it. Thank you very much.

Mayor Pro Tem Ussery stated that there have been several points made here tonight and there is no sense in repeating what's already been said. It's important that we all continue to communicate. We can't fix a problem until we talk. We can't move forward until we continue talking. Progress may not be as fast as some want, but it will occur as long as we continue to talk and the dialogue is real, sincere and heart-felt. We will be a number one city if we continue on that path. Mr. Ussery expressed his appreciation to Staff members and departments across the City for all the jobs you do day in and day out. Mr. Ussery expressed his condolences to the Murray family for the passing of McKinney native and fellow classmate Pat Murray. The City has grown smaller in my eyes with his passing.

Mayor Loughmiller expressed his appreciation to everyone who came to the meeting tonight and expressing their views. I've had a lot of meetings over the last week with different groups; everything from a handful to addressing fairly large groups on Sunday. What I have said to people in addressing some of the comments tonight, I understand that there is disappointment in some of the things I have said. I would say to you, to everybody, that I don't know if there is a right answer in terms of how you address something that is becoming a potential crisis situation. It is something we have had to deal with and try to address as best we can. I have made comments to groups and I have tried to post some things in writing that have not made the media splash. There needs to be recognition that this situation was not simple. We do have a very good Police Department and people recognize that and the department as a whole is professional and they conduct their business in a professional manner. I do agree that over the course of the last few years, we've tried to address these issues as it relates to infrastructure improvements in east McKinney and we continue to work on those. We've recently, just this past year, with regard to projects with the help of the housing authority, worked on rehabilitation of projects like Newsome Homes. We have got to continue to work on those issues. Ultimately, we did meet with groups of pastors in excess of 70 folks from McKinney. We talked at length about the investigative process, talked at length about issues like the police academy, the issue of changing a culture

and teaching respect of authority in our youth and getting our youth to appreciate or feel like they can have a relationship with the police department. Not based on being afraid of the police but having a good community relationship. I appreciate the fact that as a community we are trying to move forward. I think the common message that came out of a lot of these meetings is that, we can handle this locally. As a community, this is our City and it's something that we can address. It's not something we need to address through folks coming in from out of state that want to come in and make a statement. I understand that desire but everyone I spoke to, whether it be Alonzo Tutson, Pastors from First Baptist or Pastors from my church, the common message has been as a community we should solve this together, ourselves. I appreciate the courtesy extended tonight through citizen comments coming up and making your statements. Making them in a manner that is becoming of a meeting of this type. I appreciate that. I do want to bring up a couple of other issues. As Council member Harris mentioned, June 22nd we will be swearing in new Council members. Council members elect Tracy Rath will be our At-Large representative and Chuck Branch who will be the new District 4 representative. Congratulations to both of you on your successful campaigns. We look forward to working with you. We will have festivities in McKinney celebrating our Fourth of July. There will be a lot of activities centered around that.

Interim City Manager Tom Muehlenbeck stated that he wanted to recognize Michael Quint and Jennifer Arnold for winning the Clyde Award for the Northwest Corridor Study. This is a very prestigious award, and thank you for a job well done.

Council unanimously approved the motion by Council member Pogue, seconded by Council member Harris, to adjourn. Mayor Loughmiller adjourned the meeting at 7:50 p.m.
