**Fiscal Analysis**

The bill would amend Section 151.3186 of the Tax Code, to provide that the annual limit on refunds of state

sales and use tax to providers of cable television service, Internet access service, or telecommunications under that section is \$150 million. The limit in current law is \$50 million.

&nbsp;

The bill would take effect September 1, 2015.

### **Methodology**

Requests for refunds based on four months of activity in calendar year 2013 were in excess of the current \$50 million annual limit. Consequently, it is expected that requests for refunds based on full years of activity will exceed the proposed \$150 million limit, and the amount of refunds paid each year under the section will be \$150 million.

### **Local Government Impact**

No fiscal implication to units of local government is anticipated.
