Our measurable goals for the Home Repair Program will be to repair 20 homes in McKinney, and to arrive with projects that are on schedule and under budget.

The City of McKinney has approximately 66,000 housing units. Of that total, 11,933 homes were built between 1990-1999 (www.point2homes.com). The position of Construction Coordinator will primarily focus on this aging number of homes through our Home Repair Program.
