

John and Judy Gay Library Board Report
Thursday, November 18th
Helen Talley

We have offered Ed's position of Librarian Supervisor to Todd Payne who has accepted the position. This position will supervise a team of 5 full-time staff, two of whom are librarians, and one part-time staff. The focus will be on library systems with staff continuing to offer programming as well.

We recently hosted the Diwali festival. The program was a great success with over 350 people in attendance. Revathi, along with Melita, organized the entire event coordinating with outside organizations to provide food and entertainment in an impressive cultural event.

We are finally at full staff capacity. Jason is starting to provide shelveers more in depth training with Koha and general check in skills. The plan is to expand their knowledge of Koha and give them opportunities to step in and help when we're short staffed and sharpen their skills.

John and Judy Gay will be hosting this year's staff development day, Friday, Dec. 10th, and both libraries will be closed.
