**EXHIBIT "A"**

**General Planned Development Standards  
For Approximately 243 Acres**

**I. Purpose and Intent**

In keeping with the purpose of the award winning Regional Employment Center study, the purpose of this planned development is to provide a framework for high quality employment center, mixed-use and supporting residential and commercial uses within the central portion of the McKinney Regional Employment Center (REC).

**II. Special Provisions**

All development shall be subject to the Design Guidelines of the McKinney Regional Employment Center as adopted at the date of approval of this Planned Development or as subsequently modified by the City unless noted herein. If any conflicts between these Planned Development Standards and any future changes to the McKinney Regional Employment Center Design Guidelines relative to lot area standards should occur, the Planned Development Standards shall prevail. These PD standards adopt the McKinney Regional Employment Center Design Guidelines Schedule of Uses. Where the Planned Development Standards are silent, the McKinney Regional Employment Center Design Standards, or any future amendments shall prevail.

Parent zoning district tract shall mean each zoning tract as defined upon adoption of this ordinance. The applicant shall be responsible for documenting development totals for individual tracts and the remaining mixed-use development capacity for the original parent zoning district tract as development applications are submitted.

Due to the flexibility of mixed-use, the uses may be located throughout the property and may be shifted from one area of the parent zoning tract to another area of the parent zoning tract. Prior to shifting uses, however, a detailed general development plan shall be submitted for approval prior to a plat or site plan submittal. The intent is to allow for flexibility but to maintain the integrity of the REC, mix of uses, minimum and maximum densities and designs that have context to the surrounding areas.

Prior to approval of a preliminary plat or a site plan for any one parcel, a detailed general development plan shall be submitted for approval. The general development plan shall illustrate the proposed development as well as the entire parent zoning tract the development lies within. Staff may require that this General Development Plan include key off-site constraints that may impact development of the property. The applicant shall be required to include the following items on the general development plan exhibit:

**Exhibit B – Planned Development Standards**

- All necessary conceptual site plan requirements (scale, north arrow, etc.)
- Proposed uses and proposed building locations and dimensions
- Lot patterns
- Street network (including the designations of Type A streets, arterials, collectors, etc.)
- Land use calculations (total number of acres, percent by type, etc.)
- Open space designations

Items to be considered by staff as part of the approval process shall include the following:

- Adherence to the McKinney Regional Employment Center Overlay Design Guidelines
- Street network (Type A, Type B, collectors, arterials, etc.)
- Pedestrian connectivity and open space allocation
- Mix of land uses
