

**Parks Maintenance
Report to the Parks, Recreation and Open Space Board
October 9, 2015**

- Parks crews started work on tree trimming projects. Recent parks completed are Carey Cox, McKissick, Ledbetter, Winniford and some at E.A. Randles. Future parks will be Inspiration, Ash Woods, Cottonwood and Eubanks.
- Our fall pre-emergent will be applied early this month. Athletic fields and selected parks and medians will be treated. We are still spot spraying for the fall grassy weeds you see coming in.
- Fall 2014 athletic league numbers are attached as well as previous seasons.
- We were approved for additional funding through MCDC for (2) pieces of equipment that will help increase our production without increasing our employee numbers. We are ordering a 5cu. yd. Mulch Blower to apply mulch to plant beds and to the dog park and also to blow engineered wood fiber into the play structure areas. Also funded was a riding athletic field paint striper which will allow for faster painting of all of the 30 soccer fields, flag football fields and all baseball and softball field foul lines.

Fall 2014	Association	Resident Players	Non-Resident Players
\$3680 OWE	McKinney Soccer Association - Adult	197	255

BB 5-Series Bark and Mulch Blower

With 5 cubic yard hopper

Introducing the BB 5-Series Bark and Mulch Blower! This new model is designed with ease of use and reliable performance in mind for landscape and erosion control contractors. With its simplified control package and streamlined engineering design, the BB 5-Series will be a dependable workhorse for the application of mulches, soil blends and compost and has the added benefit of being straightforward to use and maintain. Save labor by avoiding the manual work of spreading mulches using wheelbarrows. Make more money by doing more projects in a day and put your additional laborers who were moving product by wheelbarrows to work for you on more profitable projects!

FEATURES AND BENEFITS

- Full 5 cubic yard material hopper for increased productivity and straightforward job costing
- Simplified control system for ease of use, ease of training, and reliable performance
- Simplified engineering for increased uptime and easier maintenance and troubleshooting
- Lightweight design of 7,740 lbs. empty increases payload capacity and provides more versatile towing options. (Working weight of 13,070 lbs.)
- Cummins V3.3 Tier 4i diesel engine at 65hp meets all current US EPA emissions requirements
- Blower: 820CFM @ 12PSI to help blow a wider variety of materials
- The 25 gallon fuel tank is sized to run the machine for at least 9 hours
- Has a side mounted engine with an open design for ease of access
- Electric tarp is standard to meet DOT load coverage regulations
- Lower cost, entry level unit

USES FOR THE BB 5-SERIES BARK AND MULCH BLOWER?

The BB 5-Series is perfect for the mid-size material installation projects such as residential and commercial landscape bed maintenance, filling/installing sediment control filter socks, playground safety surface installation and renewal, indoor courtyard gardens, and other applications that require precise placement
