RE: PROPOSED DEVELOPMENT BY D. GASKINS

To whom it may concern:

Mr. Gaskins has met with the Imagine International Academy of North Texas to introduce the proposed new development of a storage facility and plans to ensure the facility aesthetically aligns with the current buildings within proximity of the proposed development. It is evident that much thought has been given to the impact of traffic flow within the immediate area and the proposed development is intended to have minimal traffic impact to existing buildings.

We anticipate working closely with Mr. Gaskins as a neighboring business entity, and have no major concerns at this time.

Please let us know if any additional information is needed.

Sincerely,

A handwritten signature in black ink, appearing to read 'Julia Brady', with a stylized flourish at the end.

Julia Brady
