RE: 12-234Z
Verizon Wireless

Dear Ms. Gleinser:

Verizon Wireless is moving a second cell site that is currently located northwest of this site. That site will be a roof top antenna facility at the Health Center at Craig Ranch. The relocation of that site places it nearer to this site. This site will work at an elevation of one hundred ten (110) feet above ground level.

The proposed stream line pole is to be 110 feet in height. The lower height pole will serve the Verizon system well. All other proposed parts of the installation will be the same.

This site is very important to provide high quality cellular service to this area of the City of McKinney.

Thank you for your patience in this process.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Kavanagh", with a long, sweeping horizontal stroke extending to the right.
