Subject: Public Comment for 20-0415 (FY20-21 Budget)

Infrastructure budgeting should be prioritized in this order:

1. Maintenance of Existing Infrastructure
 - Maintenance should always be the top priority. This is a promise the city has made to taxpayers.
 - The existence of any maintenance backlog is a default on that promise.
2. Accrual for Replacement of Existing Infrastructure
 - Planning to utilize debt for infrastructure replacement is an unsustainable model.
 - Our budget should be accruing for replacement such that funds are available when every piece of infrastructure reaches the end of its life cycle.
3. Upgrading or Construction of New Infrastructure
 - These projects should only happen after we have eliminated any maintenance backlog and have ensured funds will be available for the replacement of all existing infrastructure.
 - These should be the most highly scrutinized infrastructure expenditures, undertaken only when the need exists and when sufficient tax base exists to cover the cost of maintenance and replacement accrual.

I believe that ensuring City staff has the capability to estimate these costs, and detail them in the budget, is vital to operating the City in fiscally responsible way.

Subject: Public Comment for 20-0001SUP2 (Tomes Texas Star Specific Use Permit)

- The current property pays roughly \$14,000 per year to the city in property taxes. This is not sufficient to support the large and expensive road on which it is located.
- The addition of parking adds little to no taxable value to the property, and creates a barrier to productive development that could occur there.
- It is critical to the financial sustainability of the city that space is utilized in productive ways.
- Therefore, I request that you deny this Specific Use Permit.

Subject: CC regular meeting public hearing on item #20-0415-budget input

Hello,

First off, thank you for releasing the online budget priority list for us to fill out now instead of later. It makes much more sense to do a hearing for budget input and the survey together.

In light of our economic slowdown and pandemic situation, any tax rate increase cannot happen. The city must exist with less and many pet projects might need to be scaled down, paused, or taken off the table entirely.

The city government can do with less while maintaining our police and fire. Cut the fluff instead.

Thank you,

Bridgette
