Sim Isrealoff \_\_\_\_\_ John Valencia \_\_\_\_\_

# Using the outline below, provide a written narrative no longer than 7 pages in length: I. Applying Organization

Our Mission...

\_\_\_\_\_

To bring nature and people together to discover, enjoy, experience, preserve, and restore our priceless environment. . .

- · Through educational programs emphasizing appreciation and conservation of nature.
- Through the preservation of a portion of North Texas land with its native vegetation and wildlife, in as near a natural condition as possible.
- Through museum exhibits, examples of natural history, nature-related art works, and memorabilia from our founder.

• Through indoor/outdoor nature experiences geared to all age and educational levels.

Founded in 1967 by Miss Bess Heard (1886-1988), The Heard Natural Science Museum and Wildlife Sanctuary is a natural science exploration center focused on interpreting the natural world to peopof all ages. The Heard offers guests the unique experience to understand Collin County's natural heritage as well as how lifestyle decisions we make today will affect how Collin County looks in the future. The Heard experience involves both indoor and outdoor activities throughout the 289-acre sanctuary that focus on three topics:

- 1. Providing educational experiences about natural science (biology, ecology, geology, and paleontology) to people of all ages.
- 2. Introducing the natural history of Collin County from ancient Cretaceous times when it was an inland sea, through the Ice Age, to the three major ecosystems represented today (tall grass prairie, wetlands, and bottomland forest).
- 3. Reconnecting people with the natural world by providing a place where people can enjoy birding, hiking, and other nature-related activities.

### **Staff Count:**

7 Full time employees

26 Part time employees

There are no planned organizational changes.

II. Project, Promotion or Community Event (whichever is applicable) •

The project is a multi phase project. This application addresses the first phase of the project.

The application is to purchase and install five (5) video cameras throughout the 289 acres sanctuary to capture videos of the wildlife at the Heard. The cameras will be placed strategically in the multi ecosystems present at the Heard (Native Prairie, Wet land, and Bottom forest land).

The cameras will be activated based on motion sensors. The videos will be uploaded to the internet for viewing by wider audience.

• Describe how the proposed project fulfills strategic goals and objectives for the organization.

A major part of the museum's mission is to educate the public on the environment and habitat of the wildlife in our sanctuary. It will show case the animals as they co-habitat in a suburban setting. It will further enable the public to see wildlife in their natural settings instead of manmade/controlled environment.

 Please also include planned activities, time frame/schedule, and estimated attendance and admission fees if applicable.

The locations of the cameras will be in remote areas of the sanctuary to enhance the opportunities to capture wildlife videos.

What is the venue/location for project or event?

| The camera locations are yet to be determined. It will be based on the locations of foot prints and type of the setting to enlarge the opportunities to capture images as diverse as possible                                    |
|--|
| • Provide a timeline for the project or event.   |
| Commence the project in September 2012 with anticipated completion in March 2013   |
| Detail goals for growth/expansion in future years.   |
| Planned expansions based on the quantifiable measurements of the first phase is to place additional cameras in the sanctuary.  |
| Is this Project:   |
| <ul> <li>An expansion/improvement? ☐ Yes ▼ No</li> <li>A replacement/repair? ☐ Yes ▼ No</li> <li>A multi-phase project? ▼ Yes ☐ No</li> <li>A new project? ▼ Yes ☐ No</li> </ul>   |
| Has a feasibility study or market analysis been completed for this proposed project? If so, please attack a copy of the Executive Summary.  See Attached Project cost Estimate   |
| The project has many benefits:   |
| <ul> <li>Enhance Heard Museum visibility</li> <li>Enhance City of McKinney visibility via online viewing of the wildlife at the museum</li> </ul>  |
| Has a request for funding, for this project, been submitted to MCDC in the past?   |
| □ Yes ♣ No   |
| III. Financial   |
| <ul> <li>Provide an overview of the organization's financial status including the impact of this grant request.</li> <li>This project will increase museum's visibility, thus it is anticipated that it will increase</li> </ul> |
| attendance and membership.   |
| <ul> <li>Please attach your budget for the current year and audited financial statements for the preceding two<br/>years. If financials are not available, please indicate why.</li> </ul>                                       |

See Attached

What is the estimated total cost for this Project? \$ \$18,335

(Please attach a Project budget.)

# 

Are other sources of funding available? If so, please list source and amount.

**Have any other federal, state, or municipal entities or foundations been approached for funding?** If so, please list entity, date of request and amount requested.

NO

# IV. Marketing and Outreach

Describe marketing plans and outreach strategies for your organization and for the project for which you are requesting funding – and how they are designed to help you achieve current and future goals.

# Multi facet marketing via emails, e-blasts, TV, and radio commercials

# V. Metrics to Evaluate Success

Outline the metrics that will be used to evaluate success of the proposed project. If funding is awarded, a post-event/project report will be required summarizing success in achieving objectives outlined for the event.

Number of site visits, duration of each visit by internet public access will be the measurements to determine success for this project.

# **Acknowledgements**

If funding is approved by the MCDC board of directors, Applicant will assure:

- The event/project/program for which financial assistance is sought will be administered by or under the supervision of the applying organization;
  - All funds awarded will be used exclusively for the event/project/program described in the application;
- MCDC will be recognized in all marketing, outreach, advertising and public relations as a funder of the event/project. Specifics to be agreed upon by applicant and MCDC and included in an executed Performance Agreement;
- Organization's officials who have signed the application are authorized by the organization to submit the application;
- Applicant will comply with the MCDC Grant Guidelines in executing the event/project for which funds were received.
- A final report detailing the success of the project, as measured against identified metrics, will be provided to MCDC no later than 30 days following the event/completion of project.
- Up to 80% of the approved grant may be provided, on a reimbursement basis, prior to project/program conclusion with submission of invoices/receipts to MCDC. The final 20% will be forwarded upon MCDC's receipt of unpaid invoices/receipts; documentation of fulfillment of obligations to MCDC; and final project/program/event report.
- The required performance agreement will contain a provision certifying that the applicant does not and will not knowingly employ an undocumented worker in accordance with Chapter 2264 of the Texas Government Code, as amended. Further, should the applicant be convicted of a violation under 8 U.S.C. § 1324a(f), the applicant will be required to repay the amount of the public subsidy

provided under the agreement plus interest, at an agreed to interest rate, not later than the 120th day after the date the MCDC notifies the applicant of the violation.

We certify that all figures, facts and representations made in this application, including attachments, are true and correct to the best of our knowledge.

### Heard Natural Science Museum & Wildlife Sanctuary: Purpose and History

The Heard Natural Science Museum & Wildlife Sanctuary, in McKinney Texas, is the result of Bessie Heard's vision for the future and her commitment to the community and North Texas. Founded in 1967, the Heard consists of a 289 acre wildlife sanctuary and a natural science museum for the primary purpose of educating children about nature. The Heard exists to bring nature and people together to discover, enjoy, experience, restore, and preserve our priceless environment. In keeping with Miss Heard's vision, the Heard's mission is threefold: education, conservation, and preservation. Through education, particularly for young people, the Heard emphasizes an appreciation of nature and its conservation.

# Miss Bessie Heard: Founder and Visionary

Bessie ("Miss Bessie" or "Miss Bess") Heard, founder of the Heard Natural Science Museum and Wildlife Sanctuary, was born in McKinney, Texas, on May 26, 1886. In later years she was a life member of many conservation organizations. In 1916, as a young lady, she organized a birdhouse-building contest for local children, with prizes for the winners. She also conducted a tree-planting project around the town square. Miss Bessie collected nature prints, including lithographs by John James Audubon, Chinese art, butterflies, rocks and minerals, and sea shells. She kept her collections in a room at home and would often invite groups in to see her collections and hear her talk about them. In her mid-seventies, upon the advice of the president of the Natural Science for Youth Foundation, she founded her own museum, using her collections as a nucleus. In 1964 she set up a charitable foundation, purchased 207 acres of land south of McKinney, and, in her eightieth year, began building the Heard Natural Science Museum and Wildlife Sanctuary. The facility opened to the public in 1967 and grew steadily afterward. Miss Heard died in 1988, a few weeks short of her 102<sup>nd</sup> birthday. Today, the museum's 25,000 square feet hosts exhibits of natural history, nature art, and live native animals. New outdoor and indoor classrooms and meeting spaces have been added. The Heard attracts more than 90,000 visitors annually and

offers a variety of educational programs for all ages. The wildlife sanctuary has also grown to 289 acres with nature trails and a constructed wetland area.

### **Programs and Service**

The Heard Natural Science Museum annually serves approximately ninety thousand visitors (unduplicated), primarily from the DFW Metroplex and surrounding counties. The Heard offers the public a variety of meaningful science and environmental programs, including, but not limited to:

*EcoAdventures* introduce participants to canoeing basics and giving them the opportunity to learn about the aquatic ecosystem they are paddling.

Field Trips offer children the opportunity to study natural science in a small group setting with hands-on experiments, classroom studies, and field investigations.

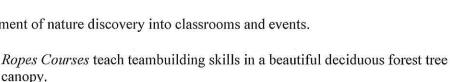

Homeschool/Pre-school Natural Science Classes engage children in hands-on learning experiences that promote an early connection to nature.

The Native Plant Garden demonstrates how native plants can be used in a urban garden setting.

Night Hikes allow participants to experience and learn about the nocturnal world of nature.

Observation Station is a program that encourages children to self-educate themselves about the environment and natural sciences.

Outreach programs take the excitement of nature discovery into classrooms and events.

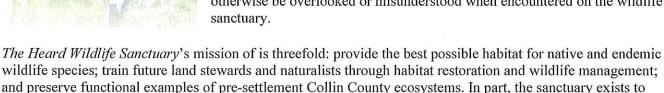

Summer Nature Camps let children, ages 5-16, enjoy the summer months as they get an in-depth education indoors in our exhibits, and outdoors on our 289-acre sanctuary.

Teacher Workshops provide professional development courses in the Heard's natural setting to develop a teacher's understanding of the natural world to share this with their students.

Heard Exhibits provide an interactive environment in which visitors can discover, enjoy and experience various aspects of the Texas natural environment. The exhibits also enhance the experience of visitors to The Heard by providing interpretation of natural events/objects found that might otherwise be overlooked or misunderstood when encountered on the wildlife

### **Heard Facilities**

Laughlin Hall is located in the main museum. This room serves as booth meeting room and classroom to many local business, organizations, schools, and more. Laughlin Hall, named after the Museum's first executive director, has a beautiful painted floor. Children often go on 'scavenger hunts' in this room to find various animals

restore human connection to the land.

painted into the mural on the floor. Laughlin Hall also has a window on nature overlooking the wildlife sanctuary and provides bird watching opportunities for those seeking to see the many varieties of birds that visit the Heard Sanctuary throughout the year.

The Exhibit Hall hosts exhibits that enhance the educational experience of visitors to The Heard by providing interpretation of natural events/objects. Our most recent exhibits have included insects, arthropods, ice age mammals, and real dinosaur skeletons.

Observation Station is a unique program that encourages children to self-educate themselves about the environment and natural sciences. Specifically designed for families, this program rewards participants through a point system for bringing an object from the environment and natural sciences. The object (shells, rocks, insects, etc.) can be brought, or the child can bring a photo, plaster cast, drawing, painting, rubbing, poems or stories.

The Living Lab is a fantasy science laboratory within a forest setting and allows people of all ages to explore the natural sciences including biology, ecology and geology and invites a better understanding of The Heard's most valuable asset, the Heard Wildlife Sanctuary. The room is complete with scientific instruments that allow guests to manipulate, to measure and to observe many specimens and to

answer scientific questions in a fun and interactive fashion. The Living Lab has three windows to the world, each provides a glimpse into the major ecosystems found at The Heard.

The Science Resource Center is a testament to people working with nature. Designed using green architecture, the center was built beside a nature trail atop a hill overlooking the wetlands and wildlife sanctuary. A deck offers gorgeous views of the wetlands and sanctuary making it a beautiful option for wedding ceremonies and receptions. This building has also proved to be an excellent setting for meetings of local companies and organizations as well as a classroom for many educational programs.

The Heard Education Annex is the base of operations for the Heard Ropes Course. Here many organizations and businesses have come together to practice fun and challenging teambuilding activities.

Tree House (proposed) classrooms will allow education programs to be conducted in a natural setting where children or adults may observe nature while being taught about it. By constructing any new buildings at the Heard through sustainable practices, we exemplify this purpose by providing an excellent teaching opportunity for the public to passively and actively learn how to adapt this lifestyle in their everyday life. Interpretive signage may be incorporated, as well, to further this message.

Proposed Sites: Wetlands, Prairie, Animal Area, Bottomland Forest

Heard Nature Trails allow visitors to escape the concrete of the city and hike over 6.5 miles of self-guided or interpreted nature trails that wind though the diverse habitats of our 289-acre wildlife sanctuary, including tall grass prairie, bottomland hardwood and limestone escarpment. Visitors may take advantage of the opportunity to encounter many species of birds, insects and animals.

### Trails include:

- Hoot Owl Trail
- Cedar Brake Loop

- Wood Duck Trail
- Bluestem Trail
- Sycamore Trail

The Heard Amphitheater has become known as an excellent location to host concerts, theater performances, speeches, education programs and more.

A Bus Drop-off/Field Trip Pavilion (proposed) will allow a central drop-off point and easily-accessible outdoor meeting area for the many large groups that visit the heard, including school field trips.

*Gardens* at the Heard allow visitors to experience a wondrous display of trees, shrubs, grasses, vines, ground covers and perennials native to the Lone Star State. This garden demonstrates how native plants can be used in an urban garden setting.

### Gardens:

- Native Plant Garden
- Sanctuary Plant Garden (proposed behind building)
- SRC Garden
- Butterfly Garden/Butterfly House

Climate Controlled Animal Enclosures (proposed) will allow our animals to easily live in comfort year round. This improvement of the animal enclosures will also provide an area that will facilitate veterinary care.

### Animals in Outdoor Exhibit:

- White Tailed Deer- Fuzz
- Mongooses
- Moluccan Cockatoo Crystal
- Racoons Roscoe & Albus
- Patagonian Cavy
- Ring-tailed Lemur Uno
- Capybaras Lucy & Dezi

Outdoor Environmental Education Center provides kids with a hands-on experience with aquatic studies. Taking and testing water samples, using microscopes to identify aquatic microorganisms, and collecting plankton in tow nets are just a few of the opportunities kids of all ages have to explore.
