

July 2014 Parks, Recreation and Open Space Advisory Board Report

- This is the second consecutive summer that the City of McKinney Aquatics Department has joined with the Angel's League in having a swim lesson for children with special needs at the Juanita Maxfield Aquatics Center. Beginning on Saturday, July 19th, the hour-long swim lesson has hosted over twenty children and their parents. Everything from basic water skills to more advanced stroke technique is taught. Angel League representative Shannon Patterson says that the children and parents look forward to the classes every summer and hopes to carry on the classes for years to come.
- The Aquatic Department held their 14th Annual Hawaiian Night on Saturday July 26. Over 250 people came to the event. The event included water slides, one duel inflatable slip and slide, chalk drawing contest, new games and prizes. New and updated decorations crated a tropical atmosphere at the JMAC pool and customers expressed their satisfaction and had a great time. It was a very successful event.

- 717 students participated in two July sessions. Last summer outdoor session started on August 4.
