

Current participants in our Emerging Technology Program - Feb 2014

Perfectly Green - First company in the program, 2010.

Deployment of their Alternative Energy Unit (AEU) product are now onsite. They are micro power generation systems, fueled by renewable resources; solar, thermal, natural gas, biomass, waste vegetable oil. One unit has been installed and working at Franconia here in McKinney and they are working a pipeline of more than 20 prospects. The next installation is scheduled with Manner Plastics that will include a solar field.

Servery - 2011 ET program start, ending Mach 2013. Still in development.

Servery continues developing a new enterprise class of hyper-efficient, high performance servers that literally help pay for themselves by dramatically lowering power, cooling and space costs by up to 80%. This vastly improves data centers OpEx, total-cost-of-ownership (TCO), and ROI

Biscotti - 2011 2013

Biscotti Inc. is a leader in high-definition video calling products for the home and business. Providing real-time, unlimited free calls to anyone, anywhere, Biscotti TV Cams give everyone the ability to interact and connect with real life picture and sound. Biscotti TV Cams were designed and created by Dr. Matthew B. Shoemake, a pioneer in Wi-Fi and video communications, and his team of scientists in Texas. Biscotti Inc. is privately held and backed by Palomar Ventures of Santa Monica, California.
