The subject property is currently zoned "PD" Planned Development District No. 2005-12-132, which allows for a second restaurant with a drive-through window, subject to the approval of a Specific Use Permit by the City Council. 13-045SU2 Mayor Loughmiller called for a Public Hearing to Consider/Discuss/Act on the Request by Pross Design Group, Inc., on Behalf of Virginia Custer Holdings, L.L.C., for Approval of a Specific Use Permit for an Indoor Gun Range (McKinney Gun Club), Being Fewer than 4 Acres, Located on the East Side of Custer Road and Approximately 950 Feet North of Virginia Parkway, and Accompanying Ordinance. Planner Alex Glushko stated that the applicant is requesting approval of a specific use permit (SUP) for an approximately 3.30 acre tract located on the east side of Custer Road and approximately 950 feet north of Virginia Parkway to allow for an indoor gun range (McKinney Gun Club). There is currently an existing approximately 25,675 square foot building on the subject property that was formerly used for indoor commercial amusement uses. The

applicant is proposing to retrofit the existing building for use as an indoor gun range, including shooting lanes, instructional classrooms, and retail sales. Subsequent to the Planning and Zoning Commission meeting on March 26, 2013, the applicant has modified their request to remove the additional special ordinance provision that would limit the noise level at the property lines to 25 decibels, and will instead comply with all applicable City noise level standards. The proposed development will be subject to the performance standards of Section 146-134 of the Zoning Ordinance, as well as Chapter 54 of the Code of Ordinances regarding shooting ranges. Staff is comfortable supporting the modified request and recommends approval of the specific use permit. Applicant, Mr. Frank Richardson, Cross Design Group, 11297 Covey Point Lane, Frisco, stated that they are still doing some engineering evaluations based on the construction of the existing building. Mr. Richardson stated that based on the type of fire arm used, the inside decibel level could range from 140 to 160 plus. They are considering adding an additional block wall with a six inch air space around the area of the firing range. With the two block walls, the air space, and some insulation in the walls will take down the inside level by 40 to 45 decibels. Mayor Loughmiller called for public comment and there was none. Council unanimously approved the motion by Mayor Pro-Tem Ussery, seconded by Council member Ricchi, to close the public hearing and approve an Ordinance authorizing a Specific Use Permit for an Indoor Gun Range (McKinney Gun Club), being fewer than 4 acres, located on the east side of Custer Road and approximately 950 feet north of Virginia Parkway. Because this annexation is at the request of the property owner, the developer of the subject property will be responsible for extending adequate infrastructure to the subject property as the property is developed. The applicant has executed an agreement dealing with the provision of services associated with the proposed annexation. This agreement, along with the associated zoning request, will be considered for final action concurrently with the annexation request. Horton - Texas, Ltd., for Approval of a Request to Zone Fewer than 4 Acres to "PD" - Planned Development District, to Allow for Single Family Residential Uses, Located Approximately 2,200 Feet West of Independence Parkway and Approximately 2,300 Feet South of Virginia Parkway, and Accompanying Ordinance. Planner Samantha Gleisner stated that this is the accompanying Ordinance to the previous annexation agenda item. Staff understands the applicant's desire to create continuity and consistency between the future surrounding adjacent neighborhoods and the subject property; however, Staff is unable to support a density (4.67 dwelling units per acre) that exceeds the maximum allowed (up to 3.4 dwelling units per acre) per the Comprehensive Plan. Applicant, Mr. Jerry Sylo, 16301 Quorum Drive, Addison, stated that they are requesting a rezoning to mirror the surrounding properties. The entire areas surrounding this property are zoned SF2 that are basically a 50 foot wide lot with a 90 foot depth minimum. Mr. Sylo stated that they are requesting to rezone to allow for 14 single family residential lots. The staff's recommendation would only allow 9 single family residential lots. He stated that his lots range from 5,500 square feet to over 10,000 square feet. Based on their request for 14 lots, 9 of the lots would be over 7,200 square feet.
