

AGENDA ITEM

TO: Planning and Zoning Commission

FROM: Matt Robinson, AICP, Planning Manager

SUBJECT: Conduct a Public Hearing to Consider/Discuss/Act on a Site Plan for a Parking Lot (McKinney Parking Lot Number 1), Located on the Northeast Corner of Hunt Street and Tennessee Street

APPROVAL PROCESS: The action of the Planning and Zoning Commission for the proposed site plan may be appealed to the City Council.

STAFF RECOMMENDATION: Staff recommends approval of the proposed site plan with the following conditions:

1. The City receive approval of a design exception to not require street screening devices along Tennessee Street and Lamar Street.

Prior to issuance of a building permit:

2. The applicant satisfy the conditions as shown on the Standard Conditions for Site Plan Approval Checklist, attached.

APPLICATION SUBMITTAL DATE: July 11, 2016 (Original Application)
July 26, 2016 (Revised Submittal)
February 15, 2017 (Revised Submittal)
February 20, 2017 (Revised Submittal)

ITEM SUMMARY: The City is proposing to add additional parking spaces on approximately 1.83 acres of the existing McKinney Parking Lot Number 1, located at the northeast corner of Tennessee Street and Lamar Street.

Site plans can typically be approved by Staff; however, the applicant is requesting a design exception to the required street screening device along Tennessee Street and Lamar Street. Design exceptions must be considered by the Planning and Zoning Commission. The requested design exception is detailed further below.

PLATTING STATUS: The subject property is currently part of McKinney Original Donation Lot 1, Block 66 and McKinney Original Donation Lots 151, 152 and 153, Block 25.

ZONING:

Location	Zoning District (Permitted Land Uses)	Existing Land Use
Subject Property	“MTC” – McKinney Town Center (Downtown Core - Residential, Commercial and Office Uses)	McKinney Downtown Parking Lot 1
North	“MTC” – McKinney Town Center (Downtown Core - Residential, Commercial and Office Uses)	Medical Offices; Single Family Residence
South	“MTC” – McKinney Town Center (Downtown Core - Residential, Commercial and Office Uses)	City of McKinney City Hall
East	“MTC” – McKinney Town Center (Downtown Core - Residential, Commercial and Office Uses)	Single Family Residence; McKinney Downtown Parking Lot B
West	“MTC” – McKinney Town Center (Downtown Core - Residential, Commercial and Office Uses)	City of McKinney – Hall Memorial Public Library

ACCESS/CIRCULATION:

Adjacent Streets: Lamar Street, 40’ Right-of-Way, Pedestrian Priority “B” Street
Tennessee Street, 60’ Right-of-Way, Pedestrian Priority “B” Street
Hunt Street, 40’ Right-of-Way, Pedestrian Priority “B” Street
Johnson Street, 20’ Right-of-Way, Service Street

PARKING: No off-street parking spaces are required as specified within the “MTC” – McKinney Town Center Zoning District of the Zoning Ordinance. However, the City is proposing to add an additional 66 off-street parking spaces to the existing 106 space parking lot.

LOADING SPACES: No loading spaces are required for the proposed use.

SOLID WASTE CONTAINERS: No sanitation containers are required for the proposed use.

SCREENING REQUIREMENTS: Within the “MTC” – McKinney Town Center Zoning District, all sites are required to meet Section 7 - Building Form and Site Development Standards of the MTC. With the submission of the site plan, the MTC requires street screening devices along any frontage on Pedestrian Priority “A” and “B” streets that are not defined by a building or a driveway. Both Tennessee Street and Lamar Street are classified as Pedestrian Priority “B” Streets and as such require street screening devices that are a minimum of two feet to a maximum of four feet high. Options for street screening include:

- 1) The same finishing material as the principal structure on the lot;
- 2) Masonry (brick, stone, or architectural masonry finish);
- 3) A living plant screen composed of evergreen shrubs planted to be opaque at maturity; or
- 4) A combination of the above.

As proposed the site plan does not meet the following Building Form and Site Development Standards of the MTC:

- Required street screening device located at the build-to-zone along Tennessee Street and Lamar Street.

The City has requested a design exception to the requirements for street screening along Tennessee Street and Lamar Street.

LIGHTING AND GLARE REGULATIONS: The City will be responsible for complying with Chapter 58 (Lighting and Glare Regulations) of the City of McKinney Code of Ordinances. The City has provided the required notation stating that the lighting will be in conformance to the requirements of the City of McKinney Code of Ordinances on the site plan.

DESIGN EXCEPTION: A Design Exception is a requested deviation from any Building Form and Site Development Standards, Building Design Standards, or Open Space Standards, beyond minor deviations specified in the Minor Modifications section of the “MTC” – McKinney Town Center Zoning District. All requests for a Design Exception are forwarded to the Planning and Zoning Commission for discretionary approval.

In reviewing any site plan applications or Design Exception requests, the Planning and Zoning Commission shall use the following criteria:

- 1) The goals, intent, and vision of the adopted McKinney Town Center Master Plan;
- 2) The extent to which the proposal fits the adjoining design context by providing appropriate building scale and use transitions;

- 3) The extent to which the proposal provides public benefits such as usable civic and open spaces, livable streets, structured and/or shared parking, and linkages to transit;
- 4) The extent to which the proposal hinders future opportunities for higher intensity Town Center development; and
- 5) Considerations of health and welfare of the general public.

The City has requested the Design Exception to not provide the required street screening device along Pedestrian Priority “B” Streets (Tennessee and Lamar). This design exception is being requested on the basis that the parking is an expansion of an existing parking lot, and the lot is intended to be temporary as it is located on the property that has been chosen as the likely home of a future City Hall. Additionally, the City is currently trying to provide as many parking spaces as it can to help support downtown businesses while the Downtown 9-acre project (southeast corner of Davis Street and Tennessee Street) is being constructed. Given these factors, Staff recommends approval of the requested design exception.

TREE PRESERVATION ORDINANCE: The City will be responsible for complying with the Tree Preservation Ordinance.

PUBLIC IMPROVEMENTS:

- | | |
|-----------------------|--|
| Sidewalks: | Required along Tennessee Street and Lamar Street |
| Hike and Bike Trails: | Not Required |
| Road Improvements: | All road improvements necessary for this development, and as determined by the City Engineer |
| Utilities: | All utilities necessary for this development, and as determined by the City Engineer |

Discussion: Under the requirements of the Subdivision Ordinance, the City will be required to construct all necessary public improvements prior to filing the accompanying plat, unless otherwise specified in an approved facilities agreement.

DRAINAGE: The City will be responsible for all drainage associated with the subject property, and for compliance with the Storm Water Ordinance, which may require on-site detention. Grading and drainage plans are subject to review and approval by the City Engineer, prior to issuance of a building permit.

FEES:

- | | |
|----------------------|----------------|
| Roadway Impact Fees: | Not Applicable |
|----------------------|----------------|

Utility Impact Fees: Not Applicable

Median Landscape Fees: Not Applicable

Park Land Dedication Fees: Not applicable

Pro-Rata: As determined by the City Engineer

OPPOSITION TO OR SUPPORT OF REQUEST: Staff has received no comments in support of or in opposition to this request.
