#### Comments

I support the creation of a temporary committee of citizens to research and recommend action regarding the Throckmorton statue. The only way McKinney can get a sense of the entire community's sentiment surrounding the statue would be with citizen participation and deliberation—a democratic process.

If the constituents of District 1 have objected to the statue and repeatedly asked their representative to work to get it taken down during his three years in office, and he has only started addressing those concerns now, that's a sign of a poor leader. And, his lack of leadership on council is one of the reasons why nearly 600 registered voters in his district signed the petition to have him recalled in November.

“Thank you for bringing it here,” Fuller says. “I’m honored that you showed up and that it’s peaceful ... there is a racial divide. A racial disparity across the country. “ Those were your words Mayor Fuller. However, Mayor Fuller, throughout the past week you shared lies. Some may not see your lies for the racism that they are, but we do. Your lies are the ones that led to armed individuals waiting for us after the meeting last week. Your lies are the same ones that have led to the death of countless black individuals. Your lies are the same as those that have been told for centuries. That blacks are “dangerous.” That we only want to start trouble. That we’re a threat.

Yet, you were “honored” to be in the presence of these same citizens weeks ago?

What do you want the citizens of your city to think? When you

---

keep a symbol of hatred and racism raised on a podium what do you want your citizens to think? When your citizens call for the death of all the black individuals present here today, what do you want your citizens to think?

Because Mayor Fuller is you're so honored to be around us then hear us. Remove the symbol of racism, oppression, and injustice you have up. That's how you can honor the black citizens of Mckinney.

Comments: I join my voice to those who demand this topic to be brought before the citizenry, let us vote on it. I am not even questioning whether keeping it is right or wrong, but something like this should be decided by the citizens of McKinney and not by foreign pressure. We should be free to decide the issues of our city. Thanks

Comments This statue is a piece of our history. History is not changed or erased by the removal of any reference in books, or monuments. It is dangerous to forget history. Instead, we should LEARN, remember, and strive to rise above. No man in history was perfect. If we tore down every statue of an imperfect man or woman, we would have none left. Congressmen Shemwell is dangerous, and he is being a bully. He needs to be recalled.

#### Comments

McKinney residents should have the opportunity to vote on whether this statue is to be removed or not. It should not be up to a specific group that is protesting for its removal, especially those who do not currently live in McKinney. Also, putting together a group to study and decide about the statue, to the tune of \$500,000, is a gross misuse of tax payer dollars.

Comments Mayor Fuller,

What a time to be the Mayor.

No decision made is a good one.

You can't please everyone so you make the best decision at the time to do what you believe is right.

---

Does a bad decision erase every good decision? I would hope not.

If it were to turn out that masking McKinney led to higher numbers and even the cause for a loss of a loved one, were you not looking at things for the whole of the community, looking to do what you thought was right in the time with the information, resources, and personal experience that brought you to the decision?

You know I am referring to James Throckmorton, a man who lived his life serving. He lived a life of service and was voted in, time after time, to represent the people he served. When he represented this area most agreed with the positions he took for whatever reasons. When the time came, he also stood in the middle and brought it all together. This should be enough to keep, and not remove a piece of history from our square. The statue is cool showing how old McKinney is, Prosper doesn't have one, Celina doesn't have one. We do!! It's History, something we can NEVER get back!

Please don't vote it away.

If it's possible to let the people decide, what better way to do it? Voting is around their corner. Let the people decide.

I am against removing McKinney's history.

Please, add my comment to the meeting and if you have time, please read it.

Comments Removing statues and erasing history is one of the Communist rules for taking over America and there must be opposed. Council-Member Shemwell is a communist who loves unrest and violence and is BAD for McKinney and must be censured and removed from office.

Comments To The City Council of McKinney,

As a member of McKinney Cares FaceBook Page it has come to my attention that there has been much acrimony from many citizen over the Throckmorton statue in downtown. It seems to me that the burden of choice to remove the statue should not fall on the shoulders of the City Council or a special committee. The public out rage is to high. It is my request that this burden of choice be put back in the hands of the people. Call a vote of the people this matter in the November election. The vote is paramount to really seeing how the community feels about the subject. Sean Nance, Admin of McKinney Cares, has already done this with a poll on the FaceBook site, and considering the nature of recent city council meeting it seems to be the best way to solve the issue. Most of all this would take away all

---

agitators from both sides, who are not citizens of McKinney,  
and let Our Community As A Whole SPEAK to the issue  
without being shouted down.

Please Let the People Speak!

With Regard and Thanks,

Jordan

Comments Mayor, if we cave in to the far left demands there is no guarantee it will stop them from demanding more. We just cannot say this will stop their protests, how much are we giving up? Please do not remove the statue, and if it is decided then is should be down to the people of mckkinney to decide not some council member who is being payed to destroy US history.

Comments In regards to the Throckmorton statue, I believe ALI McKinney residents should have a say in whether it is to be removed or not. I do not believe that a small group of people, even if it is the City Council members, should get to decide for entirety of McKinney. Before any taxpayer dollars are spent, it should be put on the ballot in November.

#### Comments

I suggest that we address the ACTUAL issues at hand behind the racial divide in our city. This is not about a statue, and it will not end at a statue if we bow to these BLM communist threats and demands. We need our leaders to protect the actual citizens and our American freedom and history before we end up like Portland. Shemwell is a lying, riot-inciting domestic terrorist seeking violent and defamatory measures against the very citizens who are seeking to HELP the black community and take peaceful empowerment actions of equality that he has NEVER done for the people he claims to represent. Our citizens are terrified to attend meetings or speak up because of this bullying, and Shemwell's people are sending threats and going to the homes of citizens who speak freely. What are the rest of you going to do about it?

Comments I would like to see the issue of whether or not to remove the Throckmorton statue be presented to the voters/citizens of McKinney for a vote. I don't think something this important should be decided by a handful of people on the city council.

**Subject:** PUBLIC COMMENTS FOR Item 20-0626, July 28, 2020 City Council Meeting

[EXTERNAL MAIL] This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

The online system would not allow me to place the entirety of my comments online. Please add these, my comments to the public hearing agenda item to be discussed on TUESDAY, JULY 28, 2020.

**Mr. Mayor and Council, I would have shown up for today's meeting, but unfortunately, the political climate has not made it possible for me to feel safe in attending a city council meeting. The week before last, one of our city council members phoned in a threat to a local citizen that was aimed at me. A police report was filed by the third party and it was determined that the threat did not meet the criminal definition needed to warrant a criminal investigation, but none-the-less, it was a warning, that has been documented and one that I take very seriously.**

**We are here today to discuss the creation of a Diversity Council and I have already gone on record as supporting the idea and endeavor to create such a Council or Commission. I have also gone on record as saying the Statue should be removed from its present place of prominence on the McKinney Square.**

**I will also say one other thing. No man should be judged by one or two events or positions one may take in his or her life span, overlooking any other good things, done. That is what we are doing here and if that is the standard by which we judge others in their public service, then so be it.**

**Let the record show, Mr. Mayor, that some of us have willingly overlooked the past criminal conduct of one city council members sitting with us today, because we once saw hope in his endeavors and he assured us that he was a changed man. We have come to expect much of our elected leaders. Some raise to the occasion and some do not. Sadly, Governor Throckmorton did not and in my honest opinion, neither has Mr. Shemwell. Both, should be removed from their positions of prominence. What's good for the goose is good for the gander.**

**Our community has a lot of issues that need to be addressed and to see it divided over this statue, when there is so much more to be accomplished, says a lot to me and many others as well.**

**To those who wish for a more speedier resolution as relates to the Governor Throckmorton statue, I see and feel your concerns. Yes, this elective body can vote now to have the statue removed, but in doing so, they run the risk of alienating opposing voices who may also want to be heard, outside of this public hearing. I applaud the Mayor for proposing a work around solution that involves citizens looking at the Statue issue, and other issues of cultural diversity, as well.**

**Rainy Rogers asked a very good question on July 7th. "Why has no one said anything before now?" La'Shadion's response was that he was afraid that someone might say, "There goes that black city councilman again."**

**Mr. Shemwell has never been shy about social justice issues, so I'm happy to see him finally stepping up to the plate. Too bad he didn't say anything about the Statue when making his Black State of Emergency proclamation last**

year. . .but it's understandable, it wasn't important enough to mention last year and he didn't want to be tagged as making an issue out of it. So I guess, being late is better than never.

All is well and these conclude my public remarks. Thank you.

I oppose and ask that the Council tables this item until such date as our city is not in economic crisis from the Coronavirus Pandemic. Statue cannot be removed by force per President Trump's recent EO. Therefore, the legal options left are to (1) leave it alone at no cost; (2) add context at minimal cost, and no committee is needed for that; or (3) remove/move it, which I believe is what the committee will most likely study. The cost to move/remove a statue are too high, starting at \$100,000 all the way up to \$450,000. I have the breakdown that I would like to share with the council. But this cost is too high at this time in our city's history. I know that the citizens of McKinney would not agree to spending such an exorbitant amount of money to remove/move this statue when so many of our businesses are hurting. I suggest we Table this item, and if citizens still want to move forward they should raise private funds to do so.

Read aloud at meeting. Statue should stay!  
They call it divisive, yet they gather around it several times for hrs. They say it hurts their feelings, yet I haven't seen any tears. If a pc of rock and stone causes distress explaining our states history, you need therapy.

This group of Shemwells yells and screams at citizens. They threaten them and call them white Supremacist if they don't agree. They get in peoples faces screaming to hit them. They incite violence if we don't cave to their demands. That's a terrorist.

Shemwell wants to destroy the black people in our community. He is not for them. He makes them look unruly, full of rage,hate and like racist. This vile man is not even from McKinney yet tries to pretend he knows what's best for our community.

Explain to me why we are even considering this wasteful

---

spending in times like these? How is spending hundreds of thousands of dollars going to help district one. It is not the government's job to protect feelings, but it is their job to be responsible with the cities funds. This is a horrible time to even discuss such frivolous spending when people are hungry, without jobs or losing businesses.

It is up to this council to choose common sense over emotions. It is up to this council to hold Shemwell responsible for the terror he continues to spread in our community. Leave the statue and take down Shemwell. He is the true racist full of hate and demise. He not only hates white people but black people too!
