

## **Status of Fluoridation in the United States**

May 2012

In 2010, approximately 73.9% of the U.S. population (204.3 million people) served by public water systems received the benefit of optimally fluoridated water.<sup>1</sup> The Healthy People 2010 goal was 75%. In 2010, 26 states met this objective.<sup>1</sup>

Healthy People 2020 Objective 13 states that at least 79.6% of the U.S. population served by community water systems should be receiving the benefits of optimally fluoridated water by 2020.<sup>2</sup>
