Gymnasium Flooring Project Description

The gymnasium in our center is used by the community on a regular basis for different athletic activities and special events. The current flooring application has extensive wear and tear and it is glued down directly to concrete foundation, which makes this application not suitable for safely athletic activities. The plan is to replace the current floor with a Connor Rezil Base gym flooring system / third grade maple. This flooring application is designed not only to provide a safe and durable surface for athletic activities but is also a product that could maintain

McKinney Corps Community Center

Gymnasium Flooring Project Scope

- Supply and install Connor Rezil Base with 25/32" x 2 1/4" Third Grade Maple
- Stripping off all 2" Basketball, Volleyball & Pickleball lines
- 1 ADA Ramp
