

CITY OF MCKINNEY 5G STRATEGIC PLAN

GUIDING PRINCIPLES

The City of McKinney seeks 5G communications infrastructure that adheres to the following guiding principles:

1. Minimize disruption of public and private property and ensure efficient use of public and private assets, as well as maintain consistency with the City's comprehensive land development plan;
2. Ensure reliable 5G services at the lowest cost to the City's residents and businesses;
3. Maximize universal access and interconnectivity;
4. Ensure maximum number and variety of 5G communications, IoT and smart city services;
5. Enhance the City's economic development programs;
6. Receive fair compensation for the use of public property and City participation; and
7. Enhance or augment community and public safety services
