City Staff recommended approval of the request, and the Planning & Zoning Commission (PZ) unanimously approved the proposed rezoning request on October 22, 2019. In accordance with Subsection 146-164(5) "Negative Recommendations; Written Protest Procedures" of the Zoning Ordinance, a valid, written protest to a proposed zoning amendment, supplement, or change must be filed by the owners of at least twenty (20) percent of either the area of the lots or land covered by the proposed change or the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area. If a valid, written protest is received by the City Secretary's Office before 5:00 p.m. on the fourth working day immediately preceding the date advertised for the City Council public hearing, the proposed zoning amendment, supplement, or change shall require a favorable vote of three-fourths of all members of the City Council.

Director of Planning Jennifer Arnold presented letters of opposition from citizens residing near the subject property and a formal petition from among qualifying properties, including several of which were delivered after the filing deadline. Director Arnold stated the number of petition entries opposing the rezone did not meet the 20 percent threshold to require a super majority favorable vote by the Council. Mayor Fuller and Council Members Shemwell, Franklin and Elliott expressed support for the rezone request. The concerns and opposition by residents were acknowledged while recognizing the pressing need for affordable housing, concerns for continuing the prolong an already lengthy process for providing housing. The ability to conform to the city's strategic plan and the school district's ability to effectively accommodate imminent campus growth was also mentions as supporting factors. It was noted that the developer already has the ability by right and without the approval from Council to develop the property in a manner that would be seemingly less desirable to residents than the proposed development for which it is now requesting permission.

Mayor Pro Tem Rainey Rogers and Council Members Frazier and Philips expressed opposition to the rezone request. The need for affordable work force housing in the city was acknowledge, though concerns for not enough housing units in this project, flawed design, lack of communication from city staff, crowded schools, congested traffic, failure to enhance or promote the existing neighborhood, and negative input from citizens were mentioned as opposing factors.
