This plant had a closing date of April. but you said due to the lawsuit file by the company nothing was being done nor would anything occur to curtail or stop the operation.

We are now 5 months into the timeline that should have ended their operations. Can you provide me with what if any contact with the company or actions the city has taken to move the process along to end their operations?

We would also voice our objections to the new concrete operations 21-0087Z "PD" - Planned Development District, Generally to Allow for Industrial Uses, Located on the East Side of County Road 317 and Approximately 2,000 Feet South of Harry McKillop Boulevard.

RE: 21-0008A/21-0087Z2

Please note the following:

1. New Code McKinney Zoning Districts and Uses February 2021 document section 2.3.3.C.54 indicates that Manufacturing, Light uses, which fall under Light Industrial zoning, are “not to create nuisances to surrounding properties.” The presence of dust, machinery noises, visible equipment, etc. are by definition nuisances to surrounding properties and the Annexation and Zoning documents must reflect the applicant’s guarantee that these nuisances do not arise.
2. New Code McKinney Zoning Districts and Uses February 2021 document section 2.3.3.C.71.a.i. indicates under “C” standards for a Recycling Facility that “all storage and recycling activities shall be conducted within a fully enclosed building.” This means that the material dropped off for recycling, the actual recycling activities, and the resulting recycled material storage, loading activities, etc. must all take place indoors. The Annexation and Zoning documents must reflect the applicant’s confirmation/agreement to this indoor requirement.

Thank you,

To Whom It May Concern:

I would like to call your attention to the minutes of the City Council Regular Meeting December 3, 2019 items 19-1011 and 19-1012, which approved a resolution, also attached, regarding cement plants in the city of McKinney.

The resolution indicates that the "Code of Ordinances ... provides for the protection of the public health and general welfare of the people of the City of McKinney." This duty, which applies regardless of nonconforming uses, clearly extends to the McKinney/other children playing outdoors at the adjacent Fairview Soccer Park.

There are 41 other types of zoning in McKinney other than Light Industrial which allow for economic growth in McKinney, real value to the Applicant, new taxable base to McKinney, and still protects the public health and general welfare duty to the people of the City of McKinney.

Thank you for your acknowledgement of this issue.

Mayor Fuller called for the following Public Hearings and Regular Agenda Items:

19-008722 Conduct a Public Hearing to Consider/Discuss/Act on a Request to Rezone the Subject Property from "PD" - Planned Development District to "PD" - Planned Development District, Generally to Modify the Development Standards and to Allow Multi-Family Residential Uses, Located Approximately 650 Feet South of Craig Drive and on the West Side of Collin McKinney Parkway, and Accompanying Ordinance

City Staff recommended approval of the request, and the Planning & Zoning Commission (PZ) unanimously approved the proposed rezoning request on October 22, 2019. In accordance with Subsection 146-164(5) "Negative Recommendations; Written Protest Procedures" of the Zoning Ordinance, a valid, written protest to a proposed zoning amendment, supplement, or change must be filed by the owners of at least twenty (20) percent of either the area of the lots or land covered by the proposed change or the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area. If a valid, written protest is received by the City Secretary's Office before 5:00 p.m. on the fourth working day immediately preceding the date advertised for the City Council public hearing, the proposed zoning amendment, supplement, or change shall require a favorable vote of three-fourths of all members of the City Council.

Director of Planning Jennifer Arnold presented letters of opposition from citizens residing near the subject property and a formal petition from among qualifying properties, including several of which were delivered after the filing deadline. Director Arnold stated the number of petition entries opposing the rezone did not meet the 20 percent threshold to require a super majority favorable vote by the Council. City Attorney Mark Houser spoke to clarify the rules of petition and super majority vote regarding this request. Housing & Community Development Manager Janay Ticken and Bob Roeder, on behalf of developer NRG Group, spoke in review of the decision and procedures over the past year by the McKinney Housing Finance Corporation to secure and partner with a developer (NRP Group) on an affordable housing development.

The following individuals made comments during the Public Hearing:

Lisa Hermes, 400 W. Virginia Street, McKinney TX 75069, President of the McKinney Chamber of Commerce, spoke on behalf of the business community expressing the lack of and need for affordable housing for the McKinney work force without specifying support or opposition to this rezone request.

The following individuals spoke in opposition to the rezone request:

Michael James Hatch, 2100 Camden, McKinney TX 75070

Paul Felts, 2317 Bennington, McKinney TX 75070

Sarah Spears, no address provided, stated her property is near subject property

Byron Gannaway, 2604 Bunker Hill, McKinney TX 75070

Michael Murray, 2101 Valcour Bay, McKinney TX 75070

Council unanimously approved the motion by Council member La'Shadi Shemwell, seconded by Council member Richard Franklin, to close the public hearing.

Mayor Fuller and Council Members Shemwell, Franklin and Elliott expressed support for the rezone request. The concerns and opposition by residents were acknowledged while recognizing the pressing need for affordable housing, concerns for continuing the prolong an already lengthy process for providing housing. The ability to conform to the city's strategic plan and the school district's ability to effectively accommodate imminent campus growth was also mentioned as supporting factors. It was noted that the developer already has the ability by right and without the approval from Council to develop the property in a manner that would be seemingly less desirable to residents than the proposed development for which it is now requesting permission.

Mayor Pro Tem Rainey Rogers and Council Members Frazier and Philips expressed opposition to the rezone request. The need for affordable work force housing in the city was acknowledged, though concerns for not enough housing units in this project, flawed design, lack of communication from city staff, crowded schools, congested traffic, failure to enhance or promote the existing neighborhood, and negative input from citizens were mentioned as opposing factors.

Council approved the motion by Council member La'Shadi Shemwell, seconded by Mayor George Fuller, to approve the Request to Rezone the Subject

Property from "PD" - Planned Development District to "PD" - Planned Development District, Generally to Modify the Development Standards and to Allow Multi-Family Residential Uses, Located Approximately 650 Feet South of Craig Drive and on the West Side of Collin McKinney Parkway, and Accompanying Ordinance with a vote of 4 - 3, Mayor Pro Tem Rogers and Council Members Charlie Philips, and Frederick Frazier voting no. The Planning & Zoning Commission voted to recommend approval of the request with consideration of the "quiet zone" designation per the city's noise ordinance. The property lies within five hundred (500) feet of a residential area so there are concerns about noise related to the outdoor activity. Staff recommends approval with requirements to develop in accordance with specific development regulations to address concerns.

Council approved the motion by Mayor Pro Tem Rainey Rogers, seconded by Council member Richard Franklin, to Close the public hearing and approve the Request to Rezone the Subject Property from "PD" - Planned Development District and "REC" Regional Employment Center Overlay District to "PD" - Planned Development District and "REC" Regional Employment Center Overlay District, Generally to Modify Uses and Development Standards Located on the Northeast Corner of Stacy Road and Arroyo Trail, and Accompanying Ordinance with a vote of 6 - 1, Council Member Charlie Philips voting no. Mayor Fuller called again for Public Comments, to which there were no requests from the public.

Mayor Fuller called for Council and Manager Comments.

Council Member Charlie Philips congratulated the McKinney North High School and McKinney High School football teams, and the McKinney Boyd High School volleyball team, for all the teams each advancing two games into the state high school playoffs. McKinney North volleyball advanced to the playoffs. McKinney North and McKinney Boyd high school cross country runners qualified for state. Duncanville and Southlake Carroll high schools will be competing in a football playoff game at McKinney ISD Athletics Stadium on Saturday, December 7.

Council Member Scott Elliott announced the NCAA Division II Football Championship Game will be December 21 at McKinney ISD Athletics Stadium, congratulating the staff and volunteers who contributed to securing an agreement for the game to be played in McKinney for three consecutive years (2018, 2019 and 2020)

Mayor Pro Tem Rainey Rogers expressed disappointment for the affordable housing rezoning decision and lack of information from the City Manager and staff regarding the super majority requirements.

Council Member La'Shadi Shemwell expressed excitement for the upcoming high school football playoff games. Council Member Shemwell reflected on the popular trend of the "What Would Jesus Do?" movement and encouraged the Council to approach decision making with consideration of the best interests of the city as a whole.

Council Member Richard Franklin congratulated the city staff, volunteers, and McKinney Main Street Board on the success of the recent Home for the Holidays event. Council Member Franklin congratulated the McKinney Housing Authority on the Merritt Homes housing redevelopment project and grand reopening which will be held in January.

Council Member Frederick Frazier commented on the affordable housing rezoning issue, stating Brigitte Wallis requested to not be reappointed to the McKinney Housing Finance Corporation board due to the affordable housing project. Council Member Franklin restated some of the concerns from citizens and suggested doing a better job of evaluating where such developments should go. Council Member Frazier congratulated the Police Department on its community involvement through its third annual youth flag football tournament. The team he coached went undefeated and won.

City Manager Paul Grimes announced the Santa's Helpers Toy Drive in historic downtown will be Thursday, December 12, 5:30-10:00 p.m. McKinney is the designated drop-off location in Collin County to collect new and unused toys, and live broadcasts of the event will be covered by Channel 8 during the 5 p.m., 6 p.m. and 10 p.m. news. City Manager Grimes encouraged families, schools, and businesses to participate in the toy drive which supports more than fifty thousand (50,000) area children. Mr. Grimes stated Ferris State, which competed in the 2018 Division II Football Championship, is in this year's Final Four and might be returning for this year's Championship.

Mayor Fuller commented on the affordable housing rezone decision, respecting the voices of all involved and supporting the work of city staff to consider the relevant factors in decision making.

There was no executive session.

Council unanimously approved the motion by Mayor George Fuller, seconded by Council member Richard Franklin, to adjourn. Mayor Fuller adjourned the meeting at 9:11 p.m.

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MCKINNEY, TEXAS, REQUESTING THAT THE BOARD OF ADJUSTMENT OF THE CITY OF MCKINNEY, TEXAS CONSIDER AMORTIZATION OF A NONCONFORMING CONCRETE BATCH PLANT USE (COWTOWN REDIMIX), LOCATED AT 2015 SOUTH McDONALD STREET AND THE ESTABLISHMENT OF A COMPLIANCE DATE IN CONFORMANCE WITH SECTION 146-40 (NONCONFORMING USES AND NONCONFORMING STRUCTURES) OF THE ZONING ORDINANCE OF THE CITY OF MCKINNEY

- WHEREAS,** the City Council of the City of McKinney, Texas adopted the ONE McKinney 2040 Comprehensive Plan in October 2018 to promote the sound development and the public health and general welfare within the Ultimate Planning Area of McKinney, including the planning of land uses, thoroughfares, parks, utilities and related matters; and
- WHEREAS,** the adopted Code of Ordinances of the City of McKinney, Texas also provides for the protection of the public health and general welfare of the people of the City of McKinney; and
- WHEREAS,** heavy industrial uses, including concrete batch plants on the property located at 2015 South McDonald Street ("Subject Property") are not in conformance with the adopted ONE McKinney 2040 Comprehensive Plan; and
- WHEREAS,** in April 2019, the City Council of the City of McKinney, Texas approved a city-initiated rezoning of the Subject Property primarily for office uses in order to bring it into alignment with the ONE McKinney 2040 Comprehensive Plan; and
- WHEREAS,** following the rezoning of the Subject Property, the concrete batch plant use is a nonconforming use subject to the provisions of Section 146-40 (Nonconforming Uses and Nonconforming Structures) of the adopted Code of Ordinances; and
- WHEREAS,** it is the declared purpose of Section 146-40 (Nonconforming Uses and Nonconforming Structures) of the adopted Code of Ordinances that nonconforming uses be eliminated and be required to comply with the regulations of Chapter 146 (Zoning Ordinance) of the City of McKinney, Texas, having due regard for the property rights of the persons affected, the public welfare, and the character of the surrounding area; and
- WHEREAS,** beginning in 2017, the City of McKinney has received, investigated and documented numerous health and nuisance incidents on the Subject Property; and
- WHEREAS,** the City Council of the City of McKinney, Texas has considered the compatibility of the nonconforming batch plant use to the surrounding area; and
- WHEREAS,** the City Council of the City of McKinney, Texas has also considered the adverse effect of the nonconforming use on nearby properties and community welfare; and
- WHEREAS,** beginning in 2018, the City of McKinney, Texas has attempted partnership solutions with the Operator (Cowtown Redi-Mix) of the batch plant use on the Subject Property to address the nonconforming status and adverse effects on the nearby properties and general welfare of the city, but has not been able to reach an agreed solution; and

WHEREAS, it is in the best interest of the citizens of McKinney that the City of McKinney consider the amortization of the nonconforming use and the establishment of the compliance date on the Subject Property.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF MCKINNEY, TEXAS, THAT:

Section 1. The City Council of the City of McKinney, Texas hereby requests that the City of McKinney Board of Adjustment consider the amortization of the concrete batch plant use located at 2015 South McDonald Street and the establishment of a compliance date for the Subject Property.

Section 2. This Resolution shall take effect immediately from and after the date of passage and is so resolved.

Ladies and Gentlemen,

Attached please find three items which we would like included in the public record for the referenced agenda item 21-0008A/21-0087Z2.

I was told by Terri Ramey, the Administrative Assistant for Planning, that if we email this data in that it will be distributed and included.

I would appreciate if someone from Planning or the City Secretary could confirm receipt of this material.

Thank you,
Andre' Schuster

McKinney City Council,

Concrete Recycling/Concrete Plant at 3403 County Road 317, McKinney, TX 75069

Attached, please find the following documents:

- (separate PDF) Hand petition signed by 274 members of the AYSES Soccer Club, including 156 residents of McKinney with addresses and phone numbers noted for confirmation, calling for a NO vote for the Subject use concrete recycling plant and other concrete plant uses adjacent to Fairview Soccer Park; the petition continues to gather more signatures
- (separate PDF) An online petition signed by over 1,500 people, calling for a NO vote as noted above; the petition is still active and continues to gather signatures
- The Applicants Letter of Intent specifying many potential and “not limited” uses and Map which clearly shows the Subject’s adjacent location to Fairview Soccer Park (noted as FSP on the map)
- Aerial image which clearly shows the Subject’s 200 foot “buffer” extending will into the FSP/AYSES soccer fields
- Wind chart showing >40% of days with wind direction from Subject location to Fairview Soccer Park
- EPA.gov website discussion on hazards of cement plants
- OSHA information on silica, which is in crushed/recycled concrete
- Extracts from Environmental Considerations in Concrete Recycling from UNC Charlotte professor
- Community Impact Newspaper article on issues with McKinney’s current concrete plants
- An email sent to the Counsel of the Applicant asking for discussion of the proposal, to which no consideration of a reply was given
- The legacy of your vote; it matters

Thank you very much for your detailed review of the attached and resulting clear understanding of the significant and indisputable evidence of the health hazards this proposed concrete use project represents to our children, parents, and other users of Fairview Soccer Park and surrounding residences.

We are not protesting other industrial uses, growth, or McKinney’s long-range plans in this area. **We are protesting the specific concrete uses proposal which is inherently integrated into the zoning/annexation request/light industrial zoning**; they are linked and they are not acceptable.

Re: Letter of Intent supporting request for a zoning change for 54.152 acres in the Richard H. Lock Survey, Abstract 517, Collin County, Texas (the "Property")

Dear Planners:

This letter of intent incorporates the application for a zoning change submitted by me on June 14, 2021 on behalf of the owners of the Property, which consist of the following: (i) Kyle Ray Pierson owning an undivided 50% interest in the Property; (ii) Randy Dean Pierson owning an undivided 25% interest in the Property; and (iii) Jeffrey Hamilton, Special Trustee of the Randy Pierson Charitable Remainder Unitrust owning an undivided 25% interest in the Property. The referenced application for zoning change accompanies an annexation application relating to the Property, which is presently located in the Extraterritorial Jurisdiction of the City of McKinney, Texas. In accordance with the submittal requirements for a zoning change, the following information is set forth below:

1. The acreage of the Property is 54.152 acres as described in the Metes and Bounds description submitted with the application. Such acreage differs from that shown by the CCAD records, but is based upon an on the ground survey and as such should be the most accurate legal description of the Property. A zoning exhibit is also submitted herewith.

2. The Property is currently in the Extraterritorial Jurisdiction of the City of McKinney, Texas, therefore, the Property is not subject to existing zoning. As referenced above, a separate application requesting annexation of the Property into the corporate limits of the City of McKinney, Texas is also being submitted for review and approval.

3. The applicant requests that the Property be zoned PD – Planned Development with a base zoning of Light Industrial (LI) and the following additional uses permitted by right:

- a. Rock, concrete and construction materials recycling center;
- b. Dirt and topsoil storage;
- c. Concrete plant, concrete batch plant, concrete block plant, fabrication or manufacture of other concrete products, pug mill operations and soil stabilization material production; and
- d. Ancillary uses directly related to any of the above, including but not limited to, outdoor storage of goods and construction materials and operation of a contractor's yard.

4. The Property is currently under contract to an entity whose primary business is concrete and construction materials recycling, as well as concrete batch plant and associated activities. The addition of the above additional permitted uses will accommodate the anticipated activities of the purchaser, while restricting many of the more intense uses permitted under the HI-Heavy Industrial zone.

5. The applicant is requesting this zoning in connection with its request for annexation of the Property into the corporate limits of the City of McKinney, Texas.

6. There are no other special considerations requested or required.

7. The Property is generally located at 3403 County Road 317, McKinney, TX 75069, and fronts along the east side of County Road 317 and is south of Farm to Market Road 546.

8. The applicant requests an appearance before the Planning and Zoning Commission and the City Council at the earliest possible dates.

In the event that any other information is required for this Letter of Intent, please refer to the application filed herewith.

Very truly yours,

Kristopher J. Kearney

Cement Manufacturing Enforcement Initiative

The cement manufacturing industry was an EPA New Source Review/Prevention of Significant Deterioration (NSR/PSD) <<https://epa.gov/enforcement/national-compliance-initiative-reducing-air-pollution-largest-sources>> national enforcement initiative in fiscal years 2008-2010 and was continued as a Reducing Air Pollution from the Largest Sources <<https://epa.gov/enforcement/national-compliance-initiative-reducing-air-pollution-largest-sources-update>> national enforcement initiative for fiscal years 2011-2013. The cement sector is the third largest industrial source of pollution, emitting more than 500,000 tons per year of sulfur dioxide, nitrogen oxide, and carbon monoxide. Beginning in 2008, EPA has pursued a coordinated, integrated compliance and enforcement strategy to address Clean Air Act New Source Review compliance issues at the nation's cement manufacturing facilities.

Health and Environmental Effects of Cement Plant Emissions

Cement plants are a significant source of sulfur dioxide, nitrogen oxide and carbon monoxide, which are associated with the following health and environmental impacts:

- Nitrogen oxide (NO_x) can cause or contribute to a variety of health problems and adverse environmental impacts, such as ground-level ozone, acid rain, global warming, water quality deterioration, and visual impairment. Affected populations include children, people with lung diseases such as asthma, and exposure to these conditions can cause damage to lung tissue for people who work or exercise outside.
- Sulfur dioxide (SO₂) in high concentrations can affect breathing and may aggravate existing respiratory and cardiovascular disease. Sensitive populations include asthmatics, individuals with bronchitis or emphysema, children, and the elderly. SO₂ is also a primary contributor to acid deposition, or acid rain.
- Carbon monoxide (CO) can cause harmful health effects by reducing oxygen delivery to the body's organs and tissues, as well as adverse effects on the cardiovascular and central nervous systems. CO also contributes to the formation of smog (ground-level ozone), which can cause respiratory problems.

OSHA's Respirable Crystalline Silica Standard for Construction

Workers who are exposed to respirable crystalline silica dust are at increased risk of developing serious silica-related diseases. OSHA's standard requires employers to take steps to protect workers from exposure to respirable crystalline silica.

What is Respirable Crystalline Silica?

Crystalline silica is a common mineral that is found in construction materials such as sand, stone, concrete, brick, and mortar. When workers cut, grind, drill, or crush materials that contain crystalline silica, very small dust particles are created. These tiny particles (known as "respirable" particles) can travel deep into workers' lungs and cause silicosis, an incurable and sometimes deadly lung disease. Respirable crystalline silica also causes lung cancer, other potentially debilitating respiratory diseases such as chronic obstructive pulmonary disease, and kidney disease. In most cases, these diseases occur after years of exposure to respirable crystalline silica.

How are Construction Workers Exposed to Respirable Crystalline Silica?

Exposure to respirable crystalline silica can occur during common construction tasks, such as using masonry saws, grinders, drills, jackhammers and handheld powered chipping tools; operating vehicle-mounted drilling rigs; milling; operating crushing machines; using heavy equipment for demolition or certain other tasks; and during abrasive blasting and tunneling operations. About two million construction workers are exposed to respirable crystalline silica in over 600,000 workplaces.

What Does the Standard Require?

The standard (29 CFR 1926.1153) requires employers to limit worker exposures to respirable crystalline silica and to take other steps to protect workers. Employers can either use a control method laid out in Table 1 of the construction standard, or they can measure workers' exposure to silica and independently decide which dust controls work best to limit exposures in their workplaces to the permissible exposure limit (PEL).

What is Table 1?

Table 1 matches 18 common construction tasks with effective dust control methods, such as using water to keep dust from getting into the air or using a vacuum dust collection system to capture dust. In

some operations, respirators may also be needed. Employers who follow Table 1 correctly are not required to measure workers' exposure to silica from those tasks and are not subject to the PEL.

Table 1 Example: Handheld Power Saws

If workers are sawing silica-containing materials, they can use a saw with a built-in system that applies water to the saw blade. The water limits the amount of respirable crystalline silica that gets into the air.

Table 1: Specified Exposure Control Methods When Working With Materials Containing Crystalline Silica

Equipment/ Task	Engineering and Work Practice Control Methods	Required Respiratory Protection and Minimum Assigned Protection Factor (APF)	
		≤ 4 hrs/ shift	> 4 hrs/ shift
Handheld power saws (any blade diameter)	Use saw equipped with integrated water delivery system that continuously feeds water to the blade. Operate and maintain tool in accordance with manufacturer's instructions to minimize dust emissions. • When used outdoors. • When used indoors or in an enclosed area.	None	APF 10
		APF 10	APF 10

Excerpt from Table 1 in 29 CFR 1926.1153

In this example, if a worker uses the saw outdoors for four hours or less per day, no respirator would be needed. If a worker uses the saw for more than four

hours per day or any time indoors, he or she would need to use a respirator with an assigned protection factor (APF) of at least 10, such as a NIOSH-certified filtering facepiece respirator that covers the nose and mouth (sometimes referred to as a dust mask). See the respiratory protection standard (29 CFR 1910.134) for information on APFs.

Alternative Exposure Control Methods

Employers who do not fully implement the control methods on Table 1 must:

- **Determine the amount of silica that workers are exposed to** if it is, or may reasonably be expected to be, at or above the **action level of 25 µg/m³** (micrograms of silica per cubic meter of air), averaged over an 8-hour day;
- Protect workers from respirable crystalline silica exposures above the **PEL of 50 µg/m³**, averaged over an 8-hour day;
- Use **dust controls** and safer work methods to protect workers from silica exposures above the PEL; and
- Provide **respirators** to workers when dust controls and safer work methods cannot limit exposures to the PEL.

What Else Does the Standard Require?

Regardless of which exposure control method is used, all construction employers covered by the standard are required to:

- Establish and implement a **written exposure control plan** that identifies tasks that involve exposure and methods used to protect workers, including procedures to restrict access to work areas where high exposures may occur;
- Designate a **competent person** to implement the written exposure control plan;
- Restrict **housekeeping** practices that expose workers to silica, such as use of compressed air without a ventilation system to capture the dust and dry sweeping, where effective, safe alternatives are available;
- Offer **medical exams**—including chest X-rays and lung function tests—every three years for workers who are required by the standard to

wear a respirator for 30 or more days per year;

- **Train workers** on the health effects of silica exposure, workplace tasks that can expose them to silica, and ways to limit exposure; and
- **Keep records** of workers' silica exposure and medical exams.

Additional Information

Additional information on OSHA's silica standard can be found at www.osha.gov/silica.

OSHA can provide compliance assistance through a variety of programs, including technical assistance about effective safety and health programs, workplace consultations, and training and education.

OSHA's On-Site Consultation Program offers free, confidential occupational safety and health services to small and medium-sized businesses in all states and several territories across the country, with priority given to high-hazard worksites. On-Site consultation services are separate from enforcement and do not result in penalties or citations. Consultants from state agencies or universities work with employers to identify workplace hazards, provide advice on compliance with OSHA standards, and assist in establishing and improving safety and health management systems. To locate the OSHA On-Site Consultation Program nearest you, call 1-800-321-OSHA or visit www.osha.gov/consultation.

How to Contact OSHA

Under the Occupational Safety and Health Act of 1970, employers are responsible for providing safe and healthful workplaces for their employees. OSHA's role is to ensure these conditions for America's working men and women by setting and enforcing standards, and providing training, education and assistance. Environmental Considerations in Concrete Recycling

Assistant Professor, UNC Charlotte

Concrete Recycling

- Breaking, removing and crushing hardened concrete from an acceptable source.
- Old concrete pavements often are excellent sources of material for producing recycled concrete aggregate (RCA).
- This webinar focuses primarily on RCA from existing pavements (not mixed C&D waste).

Potential Environmental Impacts

- Water quality
 - Contaminants in runoff and drainage
 - Alkalinity, chemical contaminants, other
 - Transported sediments
- Air quality
 - Equipment emissions
 - Fugitive dust
- Noise, other local impacts
 - Additional processing, handling
 - Traffic
- Waste generation and disposition
 - Solids, wastewater, slurries, residuals

Must be mindful of (and mitigate) adverse environmental impacts.
Treat RCA as an engineered material.

Impacts of RCA Operations

- Typically two concerns:

The city of McKinney is moving forward with the closings of two concrete batch plants despite a federal lawsuit from the owner claiming the city's methods are illegal.

The McKinney Board of Adjustments agreed Aug. 29 that one of the plants, Martin Marietta, had until April 29, 2021, either to close or to come into compliance with the zoning ordinance for that area. The board is tentatively scheduled to consider a similar date for the CowTown Redi-Mix plant during its Sept. 30 meeting.

The two plants, CowTown Redi-Mix and Martin Marietta, produce ready-mix concrete and operate on about 10 acres along Hwy. 5.

The city has been trying to close the plants and said in court documents that it is doing so legally. The process—known as amortization—began earlier this year with the identification of

land uses that are not allowed under the current zoning, after which landowners are given a certain amount of time to shut down.

The plants' concrete operations are on land that was rezoned by the city in April 2019 for regional office use.

However, TXI Operations, the owner of the concrete plants, has said that the city is misusing its authority “with the goal of forcing a lawful business to shut down” so that the city of McKinney “can obtain valuable property for cheap,” according to the legal complaint filed with the U.S. District Court in April.

The lawsuit goes on to claim that for over two years, McKinney has illegally targeted the plant, an effort which has included saying that the plant was in violation of city code provisions because it did not have an approved site plan. The lawsuit also claims that the city arranged for multiple noise violation citations to be issued “for the purpose of harassing the Plaintiff,” according to the suit. Another claim the suit makes is that the city changed the zoning for the concrete plants without providing proper notice.

“The City’s goal is to force Plaintiff to close its lawful business so that the City can acquire the Property at little cost—apparently to build a park, according to City’s own Parks and Open Space Master Plan,” the company’s complaint states.

The attorney for the concrete batch plants did not respond to requests for comment. The city of McKinney filed a motion to dismiss the case, but the court denied that motion Aug. 11 and said that TXI Operations has stated “plausible claims.”

The city’s response to the complaint, filed Aug. 25, denies the allegations and demands strict proof for the claims from TXI Operations. While McKinney has enforced its code of ordinances, it has not done anything illegal, the response states. The city’s response further requests that all of TXI Operations claims against the city be “dismissed with prejudice,” according to case documents.

According to Michael Quint, the executive director of Development Services for McKinney, the lawsuit “has less to do with the ongoing amortization processes and more to do with the city-

initiated rezoning request, which made the uses at the properties in question nonconforming."

State officials have said the plants pose no immediate health threat. Despite this, McKinney City Council initiated the amortization process at a Dec. 3 meeting with a resolution that cited the "numerous health and nuisance incidents" at the properties since 2017.

McKinney residents have filed complaints over the years about noise, light and dust pollution coming from the batch plants. Both plants are located within 500 feet of the nearest homes. In 2018, citations were issued to Martin Marietta for violating the city's noise ordinance. CowTown also has violated the city's stormwater runoff ordinances, according to Quint, and in July 2019, an estimated 8,000 pounds of cement dust were released, polluting a nearby neighborhood. Martin Marietta told state regulators that its equipment had malfunctioned.

City officials have attempted to work with the plants but have "not been able to reach an agreed solution," the December resolution stated.

Subject: Proposed Concrete Plant Adjacent to Fairview City Park

EXTERNAL email. Use caution when opening attachments or links from unknown senders.

Mr. Kearney,

We have been made aware of the proposal of your client to develop a heavy industrial concrete plant adjacent to a City Park of the Town Of Fairview.

The park is used for soccer practice with the resident AYSES club, which has approximately 500 minor-aged players, and many weekends there are hundreds of attendees (children, parents, coaches, volunteers) utilizing the facility for league and tournament play.

We are certain that you and your clients were unaware of the adjacent/abutting use when this proposal was submitted. We therefore are inviting you and your client to visit the facility at your earliest convenience.

We are aware of EPA-indicated pollutants related to concrete plants, their detrimental effect on lungs and other health, and past EPA-related litigation with these plants.

I am looking forward to you and your clients meeting the parents of the 500 members of our club, many of which are McKinney residents, and your understanding and recognition of the concerns we have.

Thank you and you can reach me as noted below,

Andre Schuster

Save Fairview Soccer Park in McKinney

Jared Pickens started this petition to City of McKinney

The City of McKinney is in the middle of a zoning change for a parcel of land abutting Fairview Soccer Park immediately to the north and stretching the entire length of the complex. The owner's intended use is to develop a concrete manufacturing

owner's intended use is to develop a concrete manufacturing and recycling plant. Please note that this project was approved by the Planning & Zoning Commission without a single question on August 24, as McKinney has no residences in this area who would complain.

Concrete plants are an EPA-indicated significant source of emissions containing sulfur dioxide, nitrogen oxide, and carbon monoxide as well as dust, which affect the lungs and vision, among other things. Please note that concrete plants in Texas are such polluters that there is a legislative mandate to study air quality issues if they are near schools; unfortunately, no such mandate exists for parks.

This plant and its pollutants will impact hundreds of children's health as they play outdoors in the zone of its dust and emissions, and we are asking for your help to stop this development. This could result in the permanent closure of Fairview Soccer Park, one of the most beloved and beautiful soccer complexes in Texas.

Please sign this petition showing that you are against this cement plant and help protect our children's health and save Fairview Soccer Park.

FM546 and CR317 are our family’s only two roads to get from our residence of 44 years to the schools and our business in McKinney. As such, we know that intersection to be partially obscured, extremely busy and high speed. We ask that each city council member visit the site and watch the traffic flow, then picture large trucks entering. This is not a safe location. Neil and Lynn Sperry

Concrete plants belong in a more industrial area. Not in this location close to a soccer complex for children and a home for adults with special needs. Please locate this plant elsewhere.

I live very near the soccer park. This is definitely a major health risk to all residents living in this area as well as the soccer complex and Cornerstone Ranch which is a residential ranch for people with disabilities. We cannot let this plant be constructed near residential homes period!!!! Cancer causing toxins and respiratory disease!!!

I am opposed to this concrete batch plant going to this location. Besides adding particulate matter to our already bad air quality from McKinney Airport and many highways...there's many factors we need to have discussed and answered:

1. Which of our roads will be impacted with large idling trucks waiting to pick up or deliver to this plant?
2. What about run off from this plant during rains into our waterways?
3. What or who will be scheduled to monitor a concrete batch plant for CONTINUED compliance. Not just at the time of approval and construction. How often will it be inspected?

These questions ALSO need to be answered thoroughly WITH a process that remains in place for monitoring the site WELL after it's approved (IF it's approved) to be put wherever it ends up.

Here's some sources I found: UT Law Guide: <https://law.utexas.edu/wp-content/uploads/sites/11/2019/01/2019-EC-ConcreteBatchPlantsGuide.pdf>

This is a horrible idea! Building a contaminate spewing cement plant next to a soccer park, where hundreds of children play is ludicrous. This plant can go in numerous other places, away from children's play zones, residency & city parks. What happened to McKinney stance of being "Unique by Nature"! Of all things, this is absolutely the furthest option from that moto. Protect our kids and build this dangerous cite away from where they play.

To Whom It May Concern,

We the undersigned are writing to protest the proposed land use of a heavy industrial concrete manufacturing and recycling plant referenced above, known as 54.152 acres in the Richard H. Lock Survey, Abstract 517, Collin County, Texas.

Please note that this location is adjacent and abutting to Fairview Soccer Park, a city park of the Town of Fairview, which is used for soccer practice and tournaments for hundreds of children daily. The resident AYSES Club has nearly 500 minor-aged members ranging from 4 to 19 years old, over 50% of which are residents of the City of McKinney. In addition to members, Fairview Soccer Park hosts numerous tournaments and league games which bring more children, parents, and volunteers to the location throughout the year.

Concrete plants are an EPA-indicated significant source of emissions containing sulfur dioxide, nitrogen oxide, and carbon monoxide as well as dust, which affect the lungs and vision, among other things. Please note that concrete plants in TX are such polluters that there is a legislative mandate to study air quality issues if they are near schools; unfortunately, no such mandate exists for parks, but clearly this plant will not be consistent with the adjacent property use.

The McKinney City Council issued a resolution citing "numerous health and nuisance incidents" since 2017 at the existing concrete plants along Spur 399. In July of 2019, 8,000 pounds of cement dust were released, an incident that was well documented. The City Council cannot accept such a risk when the health and well being of minors is at stake.

We are confident now that this issue has been raised, the City Council will recognize that this proposal should not proceed and will vote against it.

Thank you,

AYSES Parents
