**ITEM SUMMARY:** The applicant is proposing a specific use permit to allow motor vehicle fuel sales (7-Eleven), located on the east side of Hardin Boulevard and approximately 1400 feet south of University Drive (U.S. Highway 380).

The zoning for the subject property (PD Ord. No. 2018-09-070) requires that a specific use permit be granted in order for motor vehicle fuel sales to be operated on the subject property. As proposed, the Specific Use Permit would allow for 8 motor vehicle pumps servicing up to 16 automobiles as well as a retail store.

While typically this use is seen near an intersection of arterial streets, the subject

property is located in a large scale development and the current zoning is “PD”- Planned Development with a base “C3”- Regional Commercial, which is the city’s most intense commercial district. The site also benefits from a median opening on Hardin Boulevard and will serve as access to other lots in the development. With these things in mind, Staff feels the proposed use is compatible with the future neighboring development. As such, Staff recommends approval of the SUP request.

## **ZONING:**

<b>Location</b>	<b>Zoning District (Permitted Land Uses)</b>	<b>Existing Land Use</b>
Subject Property	“PD”- Planned development 2018-09-070 (Commercial Uses)	Undeveloped Land
North	“PD”- Planned development 2018-09-070 (Commercial Uses)	Undeveloped Land
South	“PD”- Planned development 2018-09-070 (Commercial Uses)	Undeveloped Land
East	“PD”- Planned development 2018-09-070 (Commercial Uses)	Undeveloped Land
West	C2- Local Commercial District (Commercial Uses)	Undeveloped Land

**SPECIFIC USE PERMITS:** When acting on a request for a specific use permit, the following factors should be considered:

- Compatibility with adjacent and neighboring land uses in the immediate area
- Adaptability of building structures to the proposed use
- Infrastructure requirements: roads, sidewalks, access to public streets, parking, and drainage
- Elements such as screening, open space, building heights, and compatibility of existing buildings to the proposed use

Staff has evaluated the request based on the above mentioned parameters and feels that the site is appropriate for the proposed use and is compatible with existing land uses of the adjacent properties.

**IMPACT ON EXISTING DEVELOPMENT:** Staff does not anticipate that the specific use permit request would have a negative impact on adjacent developments.

**CONFORMANCE TO ONE MCKINNEY 2040:** A key aspect of the ONE McKinney 2040 Comprehensive Plan is to provide direction related to the desired development patterns and to inform decisions related to the timing and phasing for future infrastructure investments in the City. To assist in guiding these decisions, the Preferred Scenario and Land Use Diagram establishes distinctive districts, each with a clear intent and market focus that are reinforced through character-defining placetypes. In conjunction with the Preferred Scenario, there will be a series of district diagrams which outline the desired development patterns for each unique area of McKinney. Per the Preferred Scenario, the subject property is located in the Collin Crossing District, and the Commercial Center Placetype. Other general placetypes included in this district are Professional Campus, Employment Mix, Urban Living, and Suburban Living.

The proposed specific use permit request is not in conflict with the Preferred Scenario.

**ACCESS/CIRCULATION:**

Adjacent Streets: Hardin Boulevard, 140' Right-of-Way, Major Arterial

Internal Circulation: The property provides shared access to the properties on the south, east and north.

**OPPOSITION TO OR SUPPORT OF REQUEST:** Staff has received no comments in support of or opposition to this request.

**BOARD OR COMMISSION RECOMMENDATION:** This item was presented at the Planning and Zoning Commission on October 8, 2019. At staff's request, the Planning and Zoning Commission voted to close the public hearing and table the request indefinitely to allow the applicant more time to address outstanding staff comments on the layout.

On November 12, 2019, the Planning and Zoning Commission voted 7-0-0 to recommend approval of the proposed rezoning request.
