BACKGROUND INFORMATION:

- Since the adoption of the Town Center Study Initiative Phase 1 Report and associated illustrative vision (together known as the "Town Center Master Plan") in March of 2008, the City of McKinney has been evaluating and implementing a comprehensive strategy of implementation tools (e.g. development policies, development ordinances, grants, public infrastructure investments, catalyst projects, etc.) in order to bring the vision to life and truly allow revitalization and economic redevelopment of the Historic Town Center to be achieved and sustained over the long-term.
- In July 2012, the City issued a Request for Proposals (RFP) seeking master development proposals from qualified private developers for the redevelopment of 10 City-owned downtown properties. Four responses were received from development teams, with negotiations ceasing with two firms due to an inability to reach agreeable terms.
- In February of 2015, the City issued a Request for Qualifications (RFQ) seeking a partnership with an experienced development team in the redevelopment of an approximately 9 acre City-

owned property located in Downtown McKinney. Qualifications sought were for team with a demonstrated track record, experience and financial capability to develop or redevelop land in a pedestrian-oriented, urban infill design that is consistent with the City's adopted Town Center Master Plan.

- The City received responses from seven development teams. Four of these teams were identified for interviews but only three interviews were conducted after one team withdrew from consideration. Of these three teams, the top two were selected to make a presentation to the City Council.
- Columbus Realty Partners, LTD. is an award winning development firm based in Dallas, Texas that has been involved in the creation and development of numerous urban mixed-use developments in the State of Texas, including specific projects in Uptown Dallas, Legacy Town Center, Addison Circle and Downtown Plano.
