ITEM SUMMARY: The applicant is proposing to subdivide approximately 53.34 acres into 241 single family residential lots and 37 common areas. The applicant has indicated that lots will be used to construct a single family subdivision.

Under the requirements of Section 142-99 (Lots) of the Subdivision Ordinance, all single family lots are required to have frontage on a public street. The applicant is requesting a variance from this requirement to allow for ten lots (Lots 53-62, Block G) to front on a common area. The variance request is described in further detail below.

Preliminary-final plats can typically be approved by the Planning and Zoning Commission; however, the plat must be considered by the City Council, as only City Council may grant variances to the Subdivision Ordinance.

PLATTING STATUS: The subject property is currently platted as a portion of Lot 2, Block A of the Trinity Falls North Addition. In order to subdivide the subject property as proposed by the applicant, a variance to the requirements of the Subdivision Ordinance is needed. The necessary variance is indicated below:

1. Approval of a variance to Section 142-99 (Lots) of the Subdivision Ordinance to waive the requirement for Lots 53-62, Block G to front on a public street.

The City Council has the authority to grant variances as outlined in the Subdivision Ordinance such as, when there are special circumstances or conditions affecting the property in question, enforcement would deprive the applicant of a substantial property right, or that the variance, if granted, will not be detrimental to the public welfare. Pecuniary interests standing alone shall not be justification for granting a variance.

VARIANCE REQUEST: Under the requirements of Section 142-99 (Lots) of the Subdivision Ordinance, all single family lots are required to have frontage on a public street. The applicant is requesting to allow ten lots (Lots 53-62, Block G) to front onto a common area (CA G-3). Access to the lots will be provided in the rear via an alley. The applicant has met all other requirements of the Subdivision Ordinance, as such Staff recommends approval of the proposed preliminary-final plat.
