### ITEM SUMMARY:

- The Parks & Recreation Department will provide a recap of the Apex Centre's success during Fiscal Year 2018, highlight opportunities for facility improvement, and review membership rates.

### BACKGROUND INFORMATION:

- The Apex Centre opened in March of 2017 and captured over 1,800 memberships in the first month of operation.
- By the end of Fiscal Year 2018 (September 30, 2018), more than 5,500 family and individual memberships to the Apex Centre were active. That number translates into approximately 19,000 unique customers, resulting in the potential need to create a waiting list to

accommodate new members.

- Due to the popularity of the Apex Centre, the expansion of the facility may need to be moved forward on the project priority list. Space for an expansion to the east was designed into the existing site plan, and staff is currently reviewing other expansion opportunities for both the building and outdoor waterpark. As of this time, there has been no funding source identified and City Council would ultimately need to review and approve any potential funding for the expansion.
- The growth experienced has resulted in a positive financial outlook that is moving the Apex Centre toward achieving the goal of operating as a self-sufficient, cost-neutral community asset.
- Staff will present options to adjust membership rates to better align with the facility's operational and financial goals, as well as introduce ideas related to the creation of scholarship opportunities.
- Staff will also present this item at the next McKinney Community Development Corporation (MCDC) and at a forthcoming City Council Work Session.
