**ITEM SUMMARY:** The applicant requests to rezone approximately 4.57 acres of land, from “AG” - Agricultural District to “PD” - Planned Development District, generally to modify the development standards of the “SF-5” - Single Family Residential District. The intent is to develop single-family residential uses, and the proposal provides for seven-and-a-half acres of open space, trail connections in addition to what’s required per the Hike and Bike Plan, and incorporates additional landscaping into the design.

The request proposes a series of enhancements, including monuments at the entryway with stone caps and landscaped beds. Three trees instead of the required two trees will be planted on all lots. Useable open space of at least seven-and-a-half acres in total will be provided, as well as a hike and bike trail in the northern floodplain/open space.

Staff is of the professional opinion that the rezoning request will offer a variety of homes in McKinney and will complement the adjacent existing and future land uses. The proposed rezoning does conform to the Suburban Living Placetype for the area, and the additional enhancements will ensure exceptional quality for the development. As such, Staff recommends approval of the proposed rezoning request.

**CONFORMANCE TO ONE MCKINNEY 2040:** A key aspect of the ONE McKinney 2040 Comprehensive Plan is to provide direction related to desired development patterns and to inform decisions related to the timing and phasing for future infrastructure investments in the City. To assist in guiding these decisions, the Preferred Scenario and Land Use Diagrams establish distinctive districts, each with a clear intent, market focus, and desired development patterns that are reinforced through character-defining placetypes. Per the Preferred Scenario, the subject property is located in the Established Community District and is designated as the Suburban Living Placetype. Other placetypes included in this district are Commercial Center, Professional Campus, Neighborhood Commercial, Mixed-Use Center, and Urban Living.

- Guiding Principles: The proposed rezoning request is generally in conformance with the Guiding Principle of “Diversity (Supporting our Economy and People)” established by the Comprehensive Plan. In particular, the proposed request has the potential to “make available housing options and neighborhood choices that are accessible, attainable, and appealing to people at all stages of their lives”.
- Land Use Diagram Compatibility: In evaluating development requests, the City should determine that a project meets the majority of the established criteria to be considered compatible with the Land Use Diagram. The proposed rezoning request aligns with the Suburban Living placetype of the Establish Community District. Furthermore, the proposed request of “PD” for traditional single family uses should be compatible with the surrounding properties and placetypes.
- Fiscal Model Analysis: The attached fiscal analysis shows a positive fiscal benefit of \$115,814 for the 22.90 acre property and should contribute to achieving an overall fiscal balance in the city. Some key takeaways for this property include:
  - The proposed zoning is estimated to generate approximately \$26.3 million in residential development value.
  - The proposed zoning is estimated to capture approximately 0.2% of McKinney’s

residential potential communitywide and approximately 0.3% of the placetype.

**OPPOSITION TO OR SUPPORT OF REQUEST:** Staff has received no comments or phone calls in support of or opposition to this request.

**BOARD OR COMMISSION RECOMMENDATION:** On March 10, 2020, the Planning and Zoning Commission voted 5-0-1 to recommend approval of the proposed rezoning request.
