However, should the specific use permit request be approved, the applicant is requesting approval of the following special ordinance provisions:

1. A mini-warehouse facility shall be permitted on the subject property;
2. The applicant receive approval of a variance to allow the building height to be increased to three-stories;
3. The applicant receive approval of a variance to waive the pitched-roof requirement;
4. The applicant receive approval of a variance to waive the required screening along the western property line where adjacent to single family residential zone or uses; and
5. The property shall generally develop in conformance with the attached site layout exhibit.
