Architectural Program and Needs Assessment Study for a New Municipal Complex for the City of McKinney

COUNCIL GOAL: Operational Excellence
Balance available resources to accommodate the growth and maintenance needs of the city.

MEETING DATE: June 4, 2018

DEPARTMENT: City Managers
Public Works Department, Facilities Construction Division

CONTACT: Barry Shelton, Assistant City Manager
Patricia L. Jackson, PE, Facilities Construction Manager
Dwayne Brinkley, AIA - Brinkley Sargent Wiginton Architects

RECOMMENDED CITY COUNCIL ACTION:

- Receive presentation and discuss the results of the architectural programming and needs assessment study.

ITEM SUMMARY:

- Architectural programming is the research and decision making process that identifies the scope of work to be designed including the number of potential staff members to be housed as well as the spatial requirements of potential building square footage and site acreage.

BACKGROUND INFORMATION:

- Due to growth of the City and widespread City facilities the decision was made by Council to pursue programming of a new municipal complex.
- In 2008, the City commissioned a needs assessment study; that same study was updated in 2011.
- On April 5, 2016, Council adopted the strategic goal of Operational Excellence and determined that a timeline for a new Municipal Complex / Downtown Parking should be established.
- In 2017, a series of meetings were held with the various city departments that would be housed in a new city hall to identify potential staffing along with functional and operational requirements.

FINANCIAL SUMMARY:

- Funding sources will need to be identified in the future should Council choose to pursue the design and construction of a new Municipal Complex.
